This book was written to familiarize beginners with general theoretical principles, requirements, applications, and processing steps of the Eddy Covariance method. It is intended to assist in further understanding the method, and provides references such as textbooks, network guidelines and journal papers. It is also intended to help students and researchers in field deployment of instruments used with the Eddy Covariance method, and to promote its use beyond micrometeorology.

Shortlisted for the 2021 Booker Prize Longlisted for the 2021 National Book Award for Fiction A heartrending new novel from the Pulitzer Prize-winning and #1 New York Times best-selling author of The Overstory. Named one of the Most Anticipated Books of 2021 by Newsweek, Los Angeles Times, New York Magazine, Chicago Tribune, BuzzFeed, BookPage, Goodreads, Literary Hub, The Millions, New Statesman, and Times of London The astrobiologist Theo Byrne searches for life throughout the cosmos while single-handedly raising his unusual nine-year-old, Robin, following the death of his wife. Robin is a warm, kind boy who spends hours painting elaborate pictures of endangered animals. He's also about to be expelled from third grade for smashing his friend in the face. As his son grows more troubled, Theo hopes to keep him off psychoactive drugs. He learns of an experimental neurofeedback treatment to bolster Robin's emotional control, one that involves training the boy on the recorded patterns of his mother's brain! With its soaring descriptions of the natural world, its tantalizing vision of life beyond, and its account of a father and son's ferocious love, Bewilderment marks Richard Powers's most intimate and moving novel. At its heart lies the question: How can we tell our children the truth about this beautiful, imperiled planet?

Camper trailers offer the freedom and pleasures of camping without the discomfort. A well-made one can be towed almost anywhere its towing vehicle can traverse. The Camper Trailer Book details all aspects of camper trailers and their use. As with all Collyn Rivers's books it describes approaches that will work, not just that

A unique celebration of the important role animals play in war, and an insightful look at the taking of Vimy Ridge from the perspective of 3 men in a Canadian platoon. Never before have the stories of animal war heroes been collected in such a special way. This book consists of eight connected fictional stories about a Canadian platoon in WW1. The Storming Normans have help from some very memorable animals: we meet a dog who warns soldiers in the trench of a gas attack, a donkey whose stubbornness saves the day, a cat who saves soldiers from rat bites, and many more. Each story is followed by nonfiction sections that tell the true story of these animals from around the world and of the Canadian soldiers who took Vimy Ridge. Through the friendship that grows between three of these soldiers in particular, we get a close-up look at life in the trenches, the taking of Vimy Ridge, the bonds between soldiers and their animals and what it meant to be Canadian in WW1.

Russia is dying from within. Oligarchs and oil barons may still dominate international news coverage, but their prosperity masks a deep-rooted demographic tragedy. Faced with staggering population declineand near-certain economic collapse/driven by toxic levels of alcohol abuse, Russia is also battling a deeper sickness: a spiritual one, born out of the country's long totalitarian experiment. In The Last Man in Russia, award-winning journalist Oliver Bullough uses the tale of a lone priest to give life to this national crisis. Father Dmitry Dudko, a dissident Orthodox Christian, was thrown into a Stalinist labor camp for writing poetry. Undaunted, on his release in the mid-1950s he began to preach to congregations across Russia with little concern for his own safety. At a time when the Soviet government denied its subjects the prospect of advancement, and turned friend against friend and brother against brother, Dudko urged his followers to cling to hope. He maintained a circle of sacred trust at the heart of one of history's most deceitful systems. But as Bullough reveals, this courageous group of believers was eventually shattered by a terrible act of betrayalone that exposes the full extent of the Communist tragedy. Still, Dudko's dream endures. Although most Russians have forgotten the man himself, the embers of hope that survived the darkness are once more beginning to burn. Leading readers from a churchyard in Moscow to the snow-blanketed ghost towns of rural Russia, and from the forgotten graves of Stalin's victims to a rock festival in an old gulag camp, The Last Man in Russia is at once a travelogue, a sociological study, a biography, and a cri de coeur for a dying nationone that, Bullough shows, might yet be saved.

The National Wildfire Coordinating Group provides national leadership to enable interoperable wildland fire operations among federal, state, local, tribal, and territorial partners. Primary objectives include: Establish national interagency wildland fire operations standards. Recognize that the decision to adopt standards is made independently by the NWCG members and communicated through their respective directives systems; Establish wildland fire position standards, qualifications requirements, and performance support capabilities (e.g. training courses, job aids) that enable implementation of NWCG standards; Support the National Cohesive Wildland Fire Management Strategy goals: to restore and maintain resilient landscapes; create fire adapted communities; and respond to wildfires safely and effectively; Establish information technology (IT) capability requirements for wildland fire; and Ensure that all NWCG activities contribute to safe, effective, and coordinated national interagency wildland fire operations. The objectives of the "Interagency Helicopter Operations Guide" (IHOG) are to: Promote safe, cost-efficient and effective aviation services in support of agency and interagency goals and objectives; Define and standardize national, interagency helicopter management and operational procedures for helicopter users from participating agencies; Through standardization, facilitate the ability of personnel from different agencies to work cooperatively on incidents or projects; and Provide a framework within which areas, regions, states, and local units can provide supplemental, site-specific guidance. The procedures contained in this guide apply to helicopter operations conducted by providers and users of helicopters from participating agencies. This guide addresses both incident and resource helicopter operations.
