Suspension is probably the most misunderstood aspect of motorcycle performance. This book, by America 's premier suspension specialist, makes the art and science of suspension tuning accessible to professional and backyard motorcycle mechanics alike. Based on Paul Thede 's wildly popular Race Tech Suspension Seminars, this step-by-step guide shows anyone how to make their bike, or their kid 's, handle like a pro 's. Thede gives a clear account of the three forces of suspension that you must understand to make accurate assessments of your suspension 's condition. He outlines testing procedures that will help you gauge how well you 're improving your suspension, along with your riding. And, if you 're inclined to perfect your bike 's handling, he even explains the black art of chassis geometry. Finally, step-by-step photos of suspension disassembly and assembly help you rebuild your forks and shocks for optimum performance. The book even provides detailed troubleshooting guides for dirt, street, and supermoto—promising a solution to virtually any handling problem.

EX250 (1988-2012)

A memoir by the mustachioed baseball pitcher who went playing rocky, trash-ridden fields in Castro 's Cuba to becoming a Boston Red Sox legend. Luis Tiant is one of the most charismatic and accomplished players in Boston Red Sox and Major League Baseball history. With a barrel-chested physique and a Fu Manchu mustache, Tiant may not have looked like the lean, sculpted ace he usually played against, but nobody was a tougher competitor on the diamond, and few were as successful. There may be no more qualified twentieth-century pitcher not yet enshrined in the National Baseball Hall of Fame. His big-league dreams came at a price: racism in the Deep South and the Boston suburbs, and nearly fifteen years separated from a family held captive in Castro 's Cuba. But baseball also delivered World Series stardom and a heroic return to his island home after ctope to a half-century of forced exile. The man whose name—“ El Tiante ”—became a Fenway Park battle cry has never fully shared his tale in his own words, until now. In Son of Havana, Tiant puts his heart on his sleeve and describes his road from torn-up fields in Havana to the pristine lawns of major league ballparks. Readers will share Tiant 's pride when appeals by a pair of US senators to baseball-fanatic Castro secure freedom for Luis 's parents to fly to Boston and witness the 1975 World Series glory of their child. And readers will join the big-league ballplayers for their spring 2016 exhibition game in Havana, when Tiant—a living link to the earliest, scariest days of the Castro regime—threw out the first pitch.

" Masterfully captures the largely forgotten saga of warrior queens through the ages . . . an epic filled with victory, defeat, and legendary women. " —Patrick K. O 'Donnell, bestselling author of The Indispensables History 's killer queens come in all colors, ages, and leadership styles. Elizabeth Tudor and Golda Meir played the roles of high-stakes gamblers who studied maps with an unblinking, calculating eye. Angola 's Queen Njinga was willing to shed (and occasionally drink) blood to establish a stable kingdom in an Africa ravaged by the slave trade. Caterina Sforza defended her Italian holdings with cannon and scimitar, and Indira Gandhi launched a war to solve a refugee crisis. From ancient Persia to modern-day Britain, the daunting thresholds these exceptional women had to cross—and the clever, sometimes violent ways in which they smashed obstacles in their paths—are evoked in vivid detail. The narrative sidles up to these war queens in the most dire, tumultuous moments of their reigns and examines the brilliant methods and maneuvers they each used to defend themselves and their people from enemy forces. Father-daughter duo Jonathan W. and Emily Anne Jordan extoll the extraordinary power and potential of women in history who walked through war 's kiln and emerged from the other side—some burnished to greatness, others burned to cinders. All of them, legends. " Reminds us intelligently and powerfully that strong-willed women have always been the equal—and very often the superior—of their male counterparts, even in the field historically most jealously reserved for men: warfare. " —Andrew Roberts, New York Times – bestselling author " This book should be required reading for anyone who loves history. " —James M. Scott, Pulitzer Prize finalist

Riding motorcycles is fun, but author Ken Condon maintains that there is a state of consciousness to be achieved beyond the simple pleasure of riding down the road. Riding in the Zone helps riders find that state of being. It's the experience of being physically and mentally present in the moment, where every sense is sharply attuned to the ride. Your mind becomes silent to the chatter of daily life, and everyday problems seem to dissolve. You feel a deeper appreciation for life. Your body responds to this state of being with precise, fluid movements, you feel in balance, your muscles are relaxed, and it seems as though every input you make is an expression of mastery. This is "the Zone." Condon identifies all of the factors that affect entering the Zone and addresses each one individually, from the development of awareness and mental skills to mastering physical control of the motorcycle. At the end of each chapter are drills designed to transform the book's ideas into solid, practical riding skills. Riding in the Zone takes riders to the next level in their skill set.
