There are nine Quick Reference Guides available – one for each of the grade levels from kindergarten through 8th grade.

Skill Builders are great for the child who needs extra practice, for the accelerated child who enjoys an extra challenge, and for the young learner who is developing basic concepts and readiness skills. High-interest activities use art to encourage children to have fun while learning. Well-paced activities gradually become more difficult as children progress. Includes over 100 activity pages, as well as answer pages where needed. Time, Money, and Measurement is filled with exciting activities and attractive art to inspire students.

Describes the day-to-day life of an early nineteenth-century New England family throughout the changing seasons.

This complete curriculum workbook provides hundreds of fun pages for practicing all the skills your child needs to succeed in the second grade.

Dave Stuart Jr. 's work is centered on a simple belief: all students and teachers can flourish. These 6 Things is all about streamlining your practice so that you 're teaching smarter, not harder, and kids are learning, doing, and flourishing in ELA and content-area classrooms. In this essential resource, teachers will receive: Proven, classroom-tested advice delivered in an approachable, teacher-to-teacher style that builds confidence Practical strategies for streamlining instruction in order to focus on key beliefs and literacy-building activities Solutions and suggestions for the most common teacher and student " hang-ups " Numerous recommendations for deeper reading on key topics

Eureka Math is a comprehensive, content-rich PreK–12 curriculum that follows the focus and coherence of the Common Core State Standards in Mathematics (CCSSM) and carefully sequences the mathematical progressions into expertly crafted instructional modules. The companion Study Guides to Eureka Math gather the key components of the curriculum for each grade into a single location, unpacking the standards in detail so that both users and non-users of Eureka Math can benefit equally from the content presented. Each of the Eureka Math Curriculum Study Guides includes narratives that provide educators with an overview of what students should be learning throughout the year, information on alignment to the instructional shifts and the standards, design of curricular components, approaches to differentiated instruction, and descriptions of mathematical models. The Study Guides can serve as either a self-study professional development resource or as the basis for a deep group study of the standards for a particular grade. For teachers who are new to the classroom or the standards, the Study Guides introduce them not only to Eureka Math but also to the content of the grade level in a way they will find manageable and useful. Teachers familiar with the Eureka Math curriculum will also find this resource valuable as it allows for a meaningful study of the grade level content in a way that highlights the coherence between modules and topics. The Study Guides allow teachers to obtain a firm grasp on what it is that students should master during the year. The Eureka Math Curriculum Study Guide, Grade 2 provides an overview of all of the Grade 2 modules, including Sums and Differences to 20; Addition and Subtraction of Length Units; Place Value, Counting, and Comparison of Numbers to 1,000; Addition and Subtraction Within 200 with Word Problems to 100; Addition and Subtraction Within 1,000 with Word Problems to 100; Foundations of Multiplication and Division; Problem Solving with Length, Money, and Data; and Time, Shapes, and Fractions as Equal Parts of Shapes.
