Accounting is the discipline of communication, analysis and interpretation of financial information for the making of appropriate and informed decisions. The subject develops learners' knowledge, skills, values, attitudes and ability to make meaningful and informed personal and collaborative financial decisions in economic and social environments.

Describes the first phase (2001-2004) of Qatar's bold K-12 education reform initiative, Education for a New Era, based on RAND's experiences as part of this ambitious, multi-participant effort. RAND examined the existing Qatari education system, recommended options for building a world-class system, and supported implementation of the chosen option, which is based on internationally benchmarked curriculum standards and parental choice of schools.
