Attention deficit hyperactivity disorder (ADHD) is the most common mental-health condition in children and is present in most countries around the world. Although there is an abundance of literature on ADHD with plenty of scientific information, this condition remains controversial and often under-diagnosed. Many books have been written for parents about ADHD but most of them are quite scientific. They can be difficult to navigate, especially if you are a parent with some symptoms of ADHD yourself. This book is a go-to guide for parents and teachers, providing up-to-date knowledge in a simple, easy-to-read format. It is filled with information your doctor would like to provide, but is often unable to do so in the limited appointment times available. This book also gives a framework and practical tips for how you can manage and advocate for your child in different settings, with or without medication. It summarises evidence to date for medication and alternative therapies, examines commonly held beliefs about ADHD, and debunks myths. ADHD Go-To Guide book has been written by a developmental paediatrician (Desiree Silva) and an ADHD coach (Michele Toner), both of whom are passionate about improving the lives of children with ADHD and their families. They both have over 20 years of experience in the field and recognise the need for this practical guide.

Parker, Ph.D., author of THE ADD HYPERACTIVITY WORKBOOK FOR PARENTS, TEACHERS, AND KIDS and THE ADD HYPERACTIVITY HANDBOOK FOR SCHOOLS

Living with ADD/ADHD can be hectic, and parenting a child with this disorder can feel like an uphill struggle when even the simplest of tasks causes havoc. This book addresses the issues of organization and time management in relation to ADD/ADHD, suggesting practical ways of organizing your child's day and turning chaos into calm. Accommodating short attention spans and short fuses, Cheryl Carter shows how, by using the F.I.R.S.T method (Fun, Individualism, Rules, Simplicity and Time management), even the most hyperactive and easily distracted of children can be taught to make their bed, pack their school bag, and generally get organized! The author recognizes that children hate anything that is boring, and finds fun ways around even the most mundane of tasks. Her no-nonsense, step-by-step strategies, in combination with positive affirmations and realistic demands, will get ADD/ADHD children organized, and from A to B without a hitch. This book is a must-have for any flagging parent struggling to structure their child's life (and indeed their own!). It will also be of interest to family members, teachers, and anybody close to a child with ADD/ADHD.

Welcomed by thousands of parents, this book shows how to recognise and overcome A.D.H.D., a controversial condition which disrupts learning abilities and causes hyperactive behaviour, particularly in children
