In the United States, some populations suffer from far greater disparities in health than others. Those disparities are caused not only by fundamental differences in health status across segments of the population, but also because of inequities in factors that impact health status, so-called determinants of health. Only part of an individual's health status depends on his or her behavior and choice; community-wide problems like poverty, unemployment, poor education, inadequate housing, poor public

# Get Free Aiims 2011 November Question Paper

transportation, interpersonal violence, and decaying neighborhoods also contribute to health inequities, as well as the historic and ongoing interplay of structures, policies, and norms that shape lives. When these factors are not optimal in a community, it does not mean they are intractable: such inequities can be mitigated by social policies that can shape health in powerful ways. *Communities in Action: Pathways to Health Equity* seeks to delineate the causes of and the solutions to health inequities in the United States. This report focuses on what communities can do to promote health equity, what actions are needed by the many and varied stakeholders that are part of communities or support them, as well as the root causes and structural barriers that need to be overcome.

# Get Free Aiims 2011 November Question Paper With Answers

Women in Science and Technology: Confronting Inequalities comprehensively explores women's status in the Science and Technology (S&T) domain by rigorously analysing and interpreting extensive recent information on major areas such as engineering, medicine, physical sciences, biosciences and mathematics. The book forcefully demonstrates that gender-based differences and expectations play the determining role in limiting women's participation in S&T. These exist in various forms, from making subject choices in school and opting for specific disciplines in college to embracing specific career avenues such as scientific research. This book shows how the construction of gendered identities is perpetuated through a masculine culture in the informal environment of elite

educational institutes and in major S&T workplaces such as academia and research laboratories, which serve together to exclude women from peer groups and opportunities for advancement. The book makes substantive recommendations for policy measures on college admissions, improvement of institutional and organizational environments, and recruitment and capacity building for women in S&T. It calls for substantially reducing the myriad societal and familial barriers through cooperation and understanding.

While the eight South Asian countries of Afghanistan, Bhutan, Bangladesh, India, the Maldives, Nepal, Pakistan, and Sri Lanka continue to be divided by deep national differences, they also share

common cultures, languages, and religions. "Perspectives on Modern South Asia" is an interdisciplinary collection of readings drawn from anthropology, literary and cultural studies, history, sociology, economics, and political science that will shape a fuller understanding of the complexities of contemporary South Asia. Featuring selections from an international group of experts, this volume explores the tension between the lived experience of cultural or religious tolerance and the deployment of culture or religion for nationalist purposes. Visweswaran offers a wealth of thought-provoking insights into the origins and development of the shifting politics, cultures, economies, and national identities of a region of the world that is home to a fifth of humanity.

This volume offers in-depth coverage of all important aspects of human paraquat poisoning, providing recent information on everything from the basic science of liquid peroxidation, to recent recommendations for prevention, diagnosis, prognosis and treatment. Perspectives from developed and developing countries are given. This work is intended for: medical and clinical toxicologists, organic, medicinal, agricultural and herbicide chemists; poison information specialists; public health, regulatory compliance and risk management officers; sanitarians; industrial hygienists; ecologists; and graduate-level and continuing-education students in these disciplines.
