Edition two senior faculty members from prestigious Sher-I-Kashmir Institute of medical sciences, Dr. Cimona L Saldhana and Dr. Muzzafer Wani have contributed in Obs/gynae and nephrology respectively besides reviewing other questions as well. The contribution of Dr. Suhail Naik is immense in the subject of paediatrics. In addition, senior residents from GMC Sri Nagar, SKIMS medical college bemina have also revised their respective subjects. The feedback I received from 1st edition really motivated me to come up with this edition. I am sure that this book will live upto its expectations and help students in their exams. An important thing for all exams is that approximately 15 to 25%

The book forcefully demonstrates that gender-based differences and expectations play the determining role in limiting women ' s participation in S&T. These exist in various forms, from making subject choices in school and opting for specific disciplines in college to embracing specific career avenues such as scientific research. This book shows how the construction of gendered identities is perpetuated through a masculine culture in the informal environment of elite educational institutes and in major S&T workplaces such as academia and

research laboratories, which serve together to exclude women from peer groups and opportunities for advancement. The book makes substantive recommendations for policy measures on college admissions, improvement of institutional and organizational environments, and recruitment and capacity building for women in S&T. It calls for substantially reducing the myriad societal and familial barriers through cooperation and understanding.

distinguished scholars from diverse nations to examine and discuss the historical, political and philosophical contexts of affirmative action and clarify policy developments to further the meaningful equality of educational opportunity. This unique volume includes both well established and emerging policies from the Americas, Europe, Africa, and Asia, policies which developed under a variety of political systems and target a range of underrepresented groups, based on race, ethnicity, gender, class, social background, or region. Accessible and thought provoking case studies of affirmative action demonstrate that such policies are expanding to different countries and target populations. While some

Countries, such as India, have affirmative action policies that predate those in the United States, affirmative action is a recent development in countries such as Brazil and France. Legal or political pressures to move away from explicitly race-based policies in several countries have complicated affirmative action and make this assessment of international alternatives particularly timely. New or newly modified policies target a variety of disadvantaged groups, based on geography, class, or caste, in addition to race or sex. International scholars in six countries spanning five continents offer insights into their own countries' experiences to examine the implications of policy shifts
