A better way to learn maternal and newborn nursing! This unique presentation provides tightly focused maternal-newborn coverage in a highly structured text

For courses in Pediatric Nursing. A comprehensive survey of family-centered pediatric nursing care Child Health Nursing: Partnering with Children & Families promotes excellence in nursing care for infants, children, and adolescents--in hospitals and in the community. It focuses on the importance of partnering with families to adapt care plans for children based on their age, health status, and social and cultural influences. The text considers the impact of contemporary care environments on nursing practice, both in health promotion and in the care of children with acute or chronic health conditions. By offering industry best practices and practical applications, the book encourages students to apply evidence-based findings and clinical reasoning to planning superior care. The updated 3rd edition explains how modern nursing practice is affected by reforms to healthcare and its delivery--such as electronic health records, new approaches to chronic and acute condition management, and a focus on prevention. To support safe, effective, and innovative care, this edition draws on the latest recommendations of NANDA International diagnoses, Nursing Intervention Classifications (NIC), Nursing Outcomes Classifications (NOC), and Healthy People 2020. Also available with MyLab Nursing MyLab (tm) Nursing is an online self-study and class preparation program designed to engage students and improve results. Its personalized learning path helps students think like nurses as they move beyond memorization to true understanding through application. Learn more. Publisher's Note: Products purchased from 3rd Party sellers are not guaranteed by the Publisher for quality, authenticity, or access to any online entitlements included with the product. Build the critical thinking capabilities essential to your success with this captivating, case-based approach. Maternity, Newborn, and Women's Health Nursing: A Case-Based Approach brings the realities of nursing practice to life and helps you acquire the understanding and clinical reasoning skills to ensure effective patient-centered care. This innovative text immerses you in realistic, case-based narratives that help you experience maternity, newborn, and women's health nursing concepts from the patient's perspective and confidently prepare for your clinical rotations. Accompanying units leverage these patient stories to enrich your understanding of key concepts and reinforce their clinical relevance, giving you unparalleled preparation for the challenges you'll face in your nursing career. Powerfully written case-based patient scenarios instill a clinically relevant understanding of essential concepts to prepare you for clinicals. Nurse's Point of View sections in Unit 1 help you recognize the nursing considerations and challenges related to patient-based scenarios. Step-by-Step Skills tutorials clarify common procedures. Unfolding Patient Stories, written by the National League for Nursing, foster meaningful reflection on commonly encountered clinical scenarios. Analyze the Evidence callouts present conflicting research to hone your critical thinking capabilities. Patient Teaching boxes highlight important information to communicate to patients. Lab Values help you recognize the significance of out-of-range values and make appropriate nursing interventions. The Pharmacy features detail essential pharmaceutical information at a glance. Interactive learning resources, including Practice & Learn Case Studies and Watch & Learn Videos, reinforce skills and challenge you to apply what you've learned. Learning Objectives and bolded Key Terms help you maximize your study time. Think Critically questions instill the clinical reasoning and analytical skills essential to safe patient-centered practice. Suggested Readings point you to further research for more information and clinical guidance.

This review module is a component of the Comprehensive assessment and review program and is designed to be used in conjunction with content area assessments that are administered in various formats.

Get the accurate, practical information you need to succeed in the classroom, the clinical setting, and on the NCLEX-RN® examination. Written by the foremost experts in maternity and pediatric nursing, the user-friendly Maternal Child Nursing Care, 6th Edition provides both instructors and students with just the right amount of maternity and pediatric content. This new edition includes updated case studies within Nursing Care Plans, as well as a new chapter on pediatric cancer. Focus on the family throughout emphasizes the influence of the entire family in health and illness. Expert authors of the market-leading maternity and pediatric nursing textbooks combine to ensure delivery of the most accurate, up-to-date content. Critical thinking case studies offer you opportunities to test and develop your analytical skills and apply knowledge in various settings. Nursing Care Plans include rationales for interventions and provide you with an overview and specific guidelines for delivering effective nursing care. Nursing Alerts highlight critical information that you need to know when treating patients. Guidelines boxes outline nursing procedures in an easy-to-follow format. Emergency boxes in the maternity unit guide you through step-by-step emergency procedures. Home Care boxes detail important information that you need to deliver care to patients and families in the home setting. Atraumatic Care boxes in the pediatric unit teach you how to provide competent and effective care to pediatric patients with the least amount of physical or psychological stress. Community Focus boxes emphasize community issues, provide resources and guidance, and illustrate nursing care in a variety of settings. Patient Teaching boxes in the maternity unit highlight important information nurses need to communicate to patients and families. Cultural Competence boxes equip you with the knowledge you need to deliver culturally competent care.\ Family-Centered Care boxes draw attention to the needs or concerns of families that you should consider to provide family-centered care. Medication Guides serve as an important reference of drugs and their interactions. NEW! New chapter on pediatric cancer gives you the most up-to-date information on the latest topics. EXPANDED! Additional information on sexuality in the maternity section. EXPANDED! More content on spirituality in the family, culture, and spiritual chapters. EXPANDED and UPDATED! New content about LGBTQ+ included in the Transition to Parenthood chapter. NEW! Information on victims of sexual abuse as parents and human trafficking helps prepare you to handle these delicate issues. NEW and UPDATED! Case studies emphasize interprofessional care, demonstrating how nursing must collaborate with other health care disciplines to provide the most comprehensive care possible to women and children. UPDATED! Nursing Care Plans now incorporate case studies to personalize interventions and promote critical thinking.

The Handbook summarizes and evaluates the evidence for cancer preventive activity of aspirin and aspirin-like drugs. In addition, it summarizes other beneficial effects (anti-thrombotic effects in cardiovascular disease prevention) and adverse effects (gastrointestinal bleeding, adverse renal and hepatic effects) of aspirin and aspirin-like drugs.

The official TEAS manual written by the creators of the TEAS exam. This study manual directly aligns with the TEAS exam, giving you the preparation you need to achieve the highest score possible. Features: - New! Features full-length practice exam with an expectancy table that helps determine how prepared you are to take the TEAS exam - New!
