4. 5. Jamaican businesses, large and small, need to get familiar with the acronym BEC. Business email compromise is a growing cyber menace under which attacks were growing 200 per cent up to two years ago, with 2020 levels set to surpass that, according to Citi cybercrime experts Juan Carlos Molina and Anthony Midthune.

In At Large and At Small, Anne Fadiman returns to one of her favorite genres, the familiar essay—a beloved and hallowed literary tradition recognized for both its intellectual breadth and its miniaturist focus on everyday experiences. With the combination of humor and erudition that has distinguished her as one of our finest essayists, Fadiman draws us into twelve of her personal obsessions: from her slightly sinister childhood enthusiasm for catching butterflies to her monumental crush on Charles Lamb, from her wistfulness for the days of letter-writing to the challenges and rewards of moving from the city to the country. Many of these essays were composed "under the influence" of the subject at hand. Fadiman ingests a shocking amount of ice cream and divulges her passion for Häagen-Dazs Chocolate Chocolate Chip and her brother's homemade Liquid Nitrogen Kahlúa Coffee (recipe included); she sustains a terrific caffeine buzz while recounting Balzac's coffee addiction; and she stays up till dawn to write about being a night owl, examining the rhythms of our circadian clocks and sharing such insomnia cures as her father's nocturnal word games and Lewis Carroll's mathematical puzzles. At Large and At Small is a brilliant and delightful collection of essays that harkens a revival of a long-cherished genre.

Rooted in close reading of texts, including the essays of E.B. White, this comprehensive assessment of the oft-slighted subform of the literary essay situates the familiar at the heart of the essay as form.

This book traces the ups and downs in the regional history of California with particular focus on the Assyrian Immigrants who settled the area of Turlock-Modesto back in 1911. It tells the story of a people who dared to leave the familiar behind and embrace the unknown. Together with other early non-Assyrian pioneers, they developed the area from sand dunes to a town of vineyards and orchards. It is the story of ordinary people with extraordinary experiences. The detailed family histories take the reader to the world at large from where the members of this dispersed refugee nation have come together to form the Turlock-Modesto colony in the heartland of California. It contains poignant accounts of a people who started out with modest beginnings; but whether they came as penniless hopefuls in search of farmland, or traumatized refugees from the Middle East, they worked hard and were able to establish themselves as a stable and even well-to-do part of the Turlock-Modesto community. Changes in the history of this immigrant enclave are traced in the context of the economic and political upheavals in the Middle East where the refugees came from as well as the economic boom and bust cycles in the central California valley. This book records the mutual interaction between the region and its inhabitants. The town shaped the structure of the community as a whole as much as the community shaped the character of the town.

Sets out in a new and authoritative way the history of the essay; explains how the essay has come to mean what it does, surveys the widely various incarnations of the form, offers new accounts of major essayists in English, and traces a wide range of significant themes.
