turned a brand of cars that had always been a cheap, honest mode of transportation into something cool with a high price tag, the generation it initially inspired has grown with the hobby, embracing the rising prices, finding ways to still be cool on a tight budget and producing a micro-industry that still manages to embrace the 'Built not bought' ethos. Patina Volkswagens, superbly illustrated with stunning colour photographs, takes an inside look at some of the key car builders, dealers, clubs and hobbyists, as well as the different styles of build, meaning every single car has a style all of its own.

dynamics and ride comfort are at the top of the list of challenges to be faced. Addressing this triad of challenges becomes even more complex when the chassis is required to interact with assistance systems and other systems for fully automated driving.
