VINTAGE MINIS- GREAT MINDS. BIG IDEAS. LITTLE BOOKS. How do we choose between what is fair and just, and what our debtors demand of us? Yanis Varoufakis was put in such a dilemma in 2015 when he became the finance minister of Greece. In this rousing book, he charts the absurdities that underpin calls for austerity, as well as his own battles with a bureaucracy bent on ignoring the human cost of its every action. Passionately outspoken and tuned to the voices of the oppressed, Varoufakis presents a guide to modern economics, and its threat to democracy, like no other. Selected from the books And the Weak Suffer What They Must?and Adults in the Room

In the immediate aftermath of the global financial crisis of 2008, governments around the developed world coordinated policy moves to stimulate economic activity and avert a depression. In subsequent years, however, cuts to public expenditure, or austerity, have become the dominant narrative in public debate on economic policy. This unique collaboration between economists and linguists examines manifestations of the discourses of austerity as these have played out in media, policy and academic settings across Europe and the Americas. Adopting a critical perspective, it seeks to elucidate the discursive and argumentation strategies used to consolidate austerity as the dominant economic policy narrative of the twenty-first century.

A #1 Sunday Times bestseller [UK] A titanic battle is being waged for Europe's integrity and soul, with the forces of reason and humanism losing out to growing irrationality, authoritarianism, and malice, promoting inequality and austerity. The whole world has a stake in a victory for rationality, liberty, democracy, and humanism. In January 2015, Yanis Varoufakis, an economics professor teaching in Austin, Texas, was elected to the Greek parliament with more votes than any other member of parliament. He was appointed finance minister and, in the whirlwind five months that followed, everything he had warned about the perils of the euro's faulty design, the European Union's shortsighted austerity policies, financialized crony capitalism, American complicity and rising authoritarianism-was confirmed as the "troika" (the European Central Bank, International Monetary Fund, and European Commission) stonewalled his efforts to resolve Greece's economic crisis. Here, Varoufakis delivers a fresh look at the history of Europe's crisis and America's central role in it. He presents the ultimate case against austerity, proposing concrete policies for Europe that are necessary to address its crisis and avert contagion to America, China, and the rest of the world. With passionate, informative, and at times humorous prose, he warns that the implosion of an admittedly crisis-ridden and deeply irrational European monetary union should, and can, be avoided at all cost.

The hawk was everything I wanted to be: solitary, self-possessed, free from grief, and numb to the hurts of human life. How do we carry on when someone close to us dies? Is it simply a case of putting one foot in front of the other in a bleak new world or do we need something more? Reeling with grief after the sudden death of her father, Helen Macdonald found herself turning to the wild for comfort. With breathtaking honesty and insight, she recounts her months spent taming a goshawk and how, finally, this strange kinship led her to the first tentative steps to recovery. Selected from H is for Hawk VINTAGE MINIS: GREAT MINDS. BIG IDEAS. A series of short books by the world's greatest writers on the experiences that make us human. What would a fair and equal society actually look like? The world-renowned economist and bestselling author Yanis Varoufakis presents his radical and subversive answer in a work of speculative fiction that recalls William Morris and William Gibson The year: 2035. At a funeral for Iris, a revolutionary leftist feminist, Yango is approached by Costa, Iris's closest comrade, who urges him to carry out Iris's last wish: plough into her secret diaries to tell their story. But, Costa insists leave out anything that might help Big Tech replicate my technologies! That night Yango delves into Iris's diaries. In them he discovers a chronicle of how Costais revolutionary technologies had unveiled an actually existing, fully democratized, postcapitalist society. Suddenly he understands Costais obsession with the hackers trying to steal his secrets. So begins Yanis Varoufakis's extraordinary novelistic thought-experiment, where the world-famous economist offers an invigorating and deeply moving vision of an alternative reality. Another Now tells the story of Costa, a brilliant but deeply disillusioned, computer engineer, who creates a revolutionary technology that will allow the user a glimpse of a life beyond their dreams! but will not enslave them. But an accident during one of its trial runs unveils a cosmic wormhole where Costa meets his DNA double, who is living in a 2025 very different than the one Costa is living in. In this parallel 2025 a global hi-tech uprising, begun in the wake of the collapse of 2008, has birthed a post-capitalist world in which work, money, land, digital networks and politics have been truly democratized. Banks have been eliminated, as well as predatory, data-mining digital monopolies; the gig economy is no more; and the young are free to experiment with different careers and to study non-lucrative topics, from Sumerian pottery to astrophysics. Intoxicated, Costa travels to England to tell Iris, his old comrade, and her neighbor, Eva, a recovering banker turned neoliberal economics professor, of the parallel universe he has discovered. Costa eventually leads them back to his workshop in America where Iris and Eva meet their own doubles, and confront hard truths about themselves and the daunting political challenge that "the Other Now" presents. But, as their obsession with the Other Now deepens, time begins to run out, as the wormhole begins to deteriorate and hackers begin to unleash new attacks on Costais technology. The trio have to make a choice: which 2025 do they want to live in? Varoufakis has been claiming for a while that we already live in postcapitalist times. That, since the 2008 crisis, capitalism has been morphing into technofeudalism. Another Now, a riveting work of speculative fiction, shows that there is a realistic, democratic alternative to the technofeudalpostcapitalist dystopia taking shape all around us. It also confronts us with the greatest question: how far are we willing to go to bring it about?

A remarkable collection of poetic voices from contemporary Greece, Austerity Measures is a one-of-a-kind window into the creative energy that has arisen from the country's decade of crisis and a glimpse into what it is like to be Greek today. The 2008 debt crisis shook Greece to the core and went on to shake the world. More recently, Greece has become one of the main channels into Europe for refugees from poverty and war. Greece stands at the center of today's most intractable conflicts, and this situation has led to a truly extraordinary efflorescence of innovative and powerfully moving Greek poetry. Karen Van Dyck's wide-ranging bilingual anthology, which covers the whole contemporary Greek poetry scene, from literary poets to poets of the spoken word to poets online, and more, offers an unequalled sampling of some of the richest and most exciting poetry of our time.

Can we ever be wholly free? In this book of breathtaking imaginary leaps that conjure dystopias and magical islands, Margaret Atwood holds a mirror up to our own world. The reflection we are faced with, of men and women in prisons literal and metaphorical, is frightening, but it is also a call to arms to speak and to act to preserve our freedom while we still can. And in that, there is hope. Selected from The Handmaid's Tale and Hag-Seed by Margaret Atwood. VINTAGE MINIS: GREAT MINDS. BIG IDEAS. LITTLE BOOKS. 'One of the greatest political memoirs of all time' (Guardian) -- The Sunday Times Number 1 Bestseller What happens when you take on the establishment? In this blistering, personal account, world-famous economist Yanis Varoufakis blows the lid on Europe's hidden agenda and exposes what actually goes on in its corridors of power. Varoufakis sparked one of the most spectacular and controversial battles in recent political history when, as finance minister of Greece, he attempted to re-negotiate his country's relationship with the EU. Despite the mass support of the Greek people and the simple logic of his arguments, he succeeded only in provoking the fury of Europe's political, financial and media elite. But the true story of what happened is almost entirely unknown - not least because so much of the EU's real business takes place behind closed doors. In this fearless account, Varoufakis reveals all: an extraordinary tale of brinkmanship, hypocrisy, collusion and betrayal that will shake the deep establishment to its foundations. As is now clear, the same policies that required the tragic and brutal suppression of Greece's democratic uprising have led directly to authoritarianism, populist revolt and instability throughout the Western world. Adults In The Room is an urgent wake-up call to renew European democracy before it is too late.

Selected from the books Sapiens and Homo Deus by Yuval Noah Harari How did money come to be invented? Why does it now have such significance in our lives? Does it make us happier or unhappier? And what does the future hold for it? With brilliant clarity and insight, Yuval Noah Harari takes the reader on a journey from the very first coins through to 21st century economics and shows us how we are all on the brink of a revolution, whether we like it or not.
