the sports boycott against apartheid. Dr Sibis Mouton speaks to us from the heart as she ranges from her childhood, her family, to her travels around the world and her internal journeys, heart-aches and victories. Life experiences, like swimming with the dolphins in the Miami Keys or photographing the famous Masai Mara migration in Kenya, are given deeper spiritual significance and take us on a mystical journey to discover the meaning and purpose of life. This is an uplifting and inspiring story that should convince the reader that life is indeed a miracle to be enjoyed and treasured.

Written specifically to introduce advanced undergraduate and beginning graduate students to an important area of mathematics, this book is far more accessible than previous books on Lie algebras. The emphasis is on special cases and explicit calculation, with many examples and exercises with full solutions provided.
