****This is the chapter slice "Word Problems Vol. 2 Gr. 6-8" from the full lesson plan "Data Analysis & Probability"**** For grades 6-8, our resource meets the data analysis & probability concepts addressed by the NCTM standards and encourages your students to learn and review the concepts in unique ways. Each task sheet is organized around a central problem taken from real-life experiences of the students. The pages of this resource contain a variety of content and levels of difficulty so as to provide students with different learning opportunities. Included in our resource are activities to help students learn how to collect, organize, analyze, interpret, and predict data probabilities. The task sheets offer space for reflection and the opportunity for the appropriate use of technology. Also contained are assessment and standards rubrics, review sheets, color activity posters and bonus worksheets. All of our content meets the Common Core State Standards and are written to Bloom's Taxonomy, STEM, and NCTM standards.
