The centenary of the outbreak of the First World War may be commemorated by some as a great moment of national history. But the standard history of Britain ' s choice for war is far from the truth. Using a wide range of sources, including the personal papers of many of the key figures, some for the first time, historian Douglas Newton presents a new, dramatic narrative. He interleaves the story of those pressing for a choice for war with the story of those resisting Britain ' s descent into calamity. He shows how the decision to go to war was rushed, in the face of vehement opposition, in the Cabinet and Parliament, in the Liberal and Labour press, and in the streets. There was no democratic decision for war. The

history of this opposition has been largely erased from the record, yet it was crucial to what actually happened in August 1914. Two days before the declaration of war four members of the Cabinet resigned in protest at the war party ' s manipulation of the crisis. The government almost disintegrated. In particular Newton shows how Prime Minister H. H. Asquith,

The battle of Seven Pines occurred in Henrico County, Virginia. This battle was also known as the Battle of Fair Oaks.

This volume brings together a selection of the papers presented at the 4th International Conference on Modality in English, held in Madrid on 9 – 11 September 2010. The book is divided into two parts, with the first encompassing contributions focusing on the notions of modality, evidentiality and temporality, and the second those that explore modality and its connection with stance and evaluation in specific genres and discourse domains.
