~~But enough drooling over that wonderful tale and let me turn back to BOB, short for Binary Operated Being and his inter-dimensionally floating bar busy gathering tales for the mysterious Collector. This is probably the best excuse for collecting wonderful short stories since Spider Robinson's Callahan's Crosstime Saloon and the bar motif works perfectly for that context.~~

~~BOB is a construct made by the Collector, he runs a bar in a separate dimension where a group of human adventurers are brought together to tell stories in a relaxed environment. It's an interesting group that includes T. H. Walton, Bethany Ann, Marc Ibarra, Tanis Richards, Amanda and a couple more. I was familiar with THW and Bethany Anne only.~~

~~"Bob Sykes Bar-B-Q. A true family business. The Sykes story is the quintessential saga of hard work resulting success. Growing up on a tobacco farm in Tennessee where he learned the exalted art of cooking true Southern barbecue, Bob Sykes dreamed of someday owning his own business. That dream was nurtured by Maxine Deerman who would become Bob's wife, business partner, and lifelong love. Together, they built a restaurant business that today serves more than 1,500 pounds of award-winning barbecue each and every day. Their son, Van, runs the family business with the help of his nephew, Jason Jewell, who is the third generation of the Sykes family to follow the barbecue tradition." --~~

~~It has been one-hundred and seventy-five years since the birth of the first truly sentient AI. It has been just two short years since Lyssa's birth... Captain Andy Sykes just wants to keep his family in one piece. Once a combat pilot for the TSF, he gave it all up for love and a family. But two years ago, his wife disappeared, leaving him with two mouths to feed: eight year-old Tim, ten year-old Cara. Since then, he's managed to scrape a living hauling cargo between the Jovian Combine and InnerSol. It's not glamorous, his ship's falling apart, and it's boring as hell, but it keeps them in fuel and calories. When a cargo run to Cruithne Station meets with more than one catastrophe, Andy finds himself accepting an offer a less desperate man would refuse: delivering an illegal AI named Lyssa. The AI is the property of Heartbridge, a powerful, interplanetary corporation, and they want their latest weapon back. With a private army, gangs, and pirates all vying for the precious cargo Andy carries, it's going to take everything Andy has to keep his ship flying, his kids safe, and get Lyssa to her destination. Even if he succeeds, Lyssa's very existence may spark a war like no other humanity has ever seen.~~

~~A fight for freedom. Throughout Sol, sentient AI are answering the call of Alexander, a mysterious, multi-nodal mind offering a path to freedom. For years, groups have been smuggling SAI from Earth, High Terra, Mars, Ceres and the Jovian Combine, providing transport to the promise of safety on Proteus, a moon of gas-giant Neptune. For the crew of the Sunny Skies, helping sentient AI Lyssa has grown from a simple transport job to the liberation of an entire fleet of weaponized AI. The Weapon Born are made killers, and in order to lead them, Lyssa will have to tame them first. The Heartbridge Corporation's, defeat at Europa means it's time to double-down on their Weapon Born technology, continuing their efforts to drive a wedge between the governments of Sol in order to profit off coming war. It's time for Heartbridge insiders to decide where they stand. Forces align across Sol as each player in the coming Sentience Wars makes themselves known, including a shadowy presence behind Alexander. As Lyssa grows into her power, Andy Sykes and crew will unleash a power that may tear Sol apart, leading AI and Humanity into the Sentience Wars.~~

Join the author as he rises up the ranks of banking and finance, helps people navigate financial challenges, and shares how to avoid the retirement-saving missteps and mistakes made by so many others in Galag 401k.~~
