In The Malay
Dilemma, former
prime minister
Mahathir Mohamad

Access Free Bocoran Angka

Examines and
analyses the make-up
of the Malays and the
problem of racial
harmony in Malaysia.
First published in
1970, the book seeks
to explain the causes
for the 13 May 1969
riots in Kuala
Lumpur. Dr Mahathir
sets out his view as to
why the Malays are

He argues that the Malays are the rightful owners of Malaya. He also argues that immigrants are guests until properly absorbed, and that they are not properly absorbed until they have abandoned the language and culture of their past.

When after three decades of research Singapore could produce its own water, the little city-state was said to have lost its vulnerability. No longer would every policy have to bend at the knees for water survival. It was finally time to celebrate liberty!

Every successful
organization needs
high-performance
teams to compete
and succeed. Yet,
technical people are
often resistant to
traditional "touchy-

To improve communication, performance, and morale among NASA ' s technical teams, former NASA Astrophysicist Dr. Charlie Pellerin developed the teambuilding process described in "How NASA Builds Teams"—an

approach that is proven, quantitative, and requires only a fraction of the time and resources of traditional training methods. This "4-D" process has boosted team performance in hundreds of NASA project teams, engineering teams, and management teams, including the
