- thinking like a bug
- organizing a party
- learning the game of poker
- pretending you're James Bond
- acting like a millionaire
- and more!

"At the end of the Second World War the Director of Naval Construction set the various design teams within his department the task of recording their wartime activities. All types were covered from the largest fleet carrier to the humblest tug, and the short summaries described the principal achievements of each design and distilled the

lessons of combat." "By a quirk of history these essays were never published, so that this superb set of three volumes is the first complete publication. The contemporary illustrations intended for inclusion have been lost but a fine new selection is here incorporated, and the editor of the series, D. K. Brown, has added footnotes to explain obscure references and technical jargon." "This second volume includes submarines, corvettes and frigates, fleet mine sweepers and motor torpedo boats, and for those interested in the rationale of design and the performance of warships in battle it unlocks a vast source of fascinating and authentic original material upon which so much of postwar interpretation and analysis has been based."--BOOK JACKET. marque, in individual volumes or a set. Each book contains in-depth profiles of specific makes by model, factory photos, and up-to-date vehicle pricing. The I-to-conditional pricing system assures readers of accurate values, whether a vehicle is a #1 low-mileage, rust-free beauty or a #6 parts-only heap. "Techs & specs", original factory prices, production and serial numbers, and engine/chassis codes are noted by model, thus helping you determine authenticity accuracy. Historical, technical and pricing information are combined from hundreds of sources. James Flammang values each model according to the popular 1-6 grading system invented by Old Cars magazine.
