Foundation Learning.

This title focuses on  
BTEC Level 1  
construction.

## Student Book

Construction

Mathematics is an  
introductory level  
mathematics text,  
written specifically for  
students of construction  
and related disciplines.

Learn by tackling  
exercises based on real-

# Read Book Btec First

life construction maths.

Examples include:  
costing calculations,  
labour costs, cost of  
materials and setting out  
of building components.  
Suitable for beginners  
and easy to follow  
throughout. Learn the  
essential basic theory  
along with the practical  
necessities. The second  
edition of this popular  
textbook is fully

# Read Book Btec First

updated to match new curricula, and expanded to include even more learning exercises. End of chapter exercises cover a range of theoretical as well as practical problems commonly found in construction practice, and three detailed assignments based on practical tasks give students the opportunity

# Read Book Btec First

to apply all the knowledge they have gained. Construction Mathematics addresses all the mathematical requirements of Level 2 construction NVQs from City & Guilds/CITB and Edexcel courses, including the BTEC First Diploma in Construction.

Additional coverage of

# Read Book Btec First

the core unit  
Mathematics in  
Construction and the  
Built Environment from  
BTEC National  
Construction, Civil  
Engineering and  
Building Services  
courses makes this an  
essential revision aid for  
students who do not  
have Level 2  
mathematics experience  
before commencing

# Read Book Btec First

their BTEC National studies. This is also the ideal primer for any reader who wishes to refresh their mathematics knowledge before going into a construction HNC or BSc.

A clearly written and easily accessible textbook that encourages independent

# Read Book Btec First

study, covering all the core material required for the BTEC First Certificate and Diploma.

Knowledge-check questions and activities are included throughout, along with review questions and worked mathematical examples, all of which relate to real-world engineering contexts. Students will gain a valuable insight

# Read Book Btec First

into various areas of engineering technology and related industries, providing a potential springboard to further training, qualifications, or suitable employment.

For those students wishing to progress to BTEC National, this textbook covers all the vital material required as a prerequisite to NVQ Level 3. New in

# Read Book Btec First

this edition: • Updated in line with the 2010 changes to the BTEC First specifications • Includes detailed information on assessment, featuring example questions and answers • Layout and design changes provide extra clarity

This course book covers the compulsory core

# Read Book Btec First

units of the 2010 BTEC

First Engineering  
schemes from Edexcel.

It gives full coverage of  
the common core units  
for the

certificate/diploma

(units one and two), plus  
the additional

compulsory units for  
diploma students (units  
three and four), for all  
pathways.

the BTEC First Early

# Read Book Btec First

Years qualification. It covers the core and optional units, so readers can be confident that it contains all the knowledge required to successfully complete the course. Each chapter covers a complete unit of the qualification, providing comprehensive coverage of the new specifications. Case

# Read Book Btec First

studies with linked questions and activities allow students to apply theory to everyday early years practice and explore what they have learnt.

For BTEC construction students, Science, Structural Mechanics and Materials are combined into one unit. This new book focuses

# Read Book Btec First

mainly on science and structural mechanics but also provides basic information on construction materials.

The material is presented in a tried-and-tested, student-friendly format that will create an interest in science and ensure that students get all the information they need - from one book. Construction

# Read Book Btec First

Science & Materials is divided into 17 chapters, each with written explanations

supplemented by solved examples and relevant diagrams to substantiate the text. Chapters end with numerical questions covering a range of problems and their answers are given at the end of the book and on the book's

# Read Book Btec First

website. The author takes into account the latest Edexcel specifications (August 2010) and provides information on topics included in Levels 2/3/4 Science, and Science and Materials. Brief coverage of building materials but more detail on science and structural mechanics topics will be included.

# Read Book Btec First

Recent developments in science and building materials are covered as well as changes in the Building Regulations.

The book includes assignments that can be used by teachers for setting coursework or by students to reinforce their learning. The assignment tasks will cover the latest relevant learning

# Read Book Btec First

outcomes/grading  
criteria set by Edexcel.  
Students will find here  
all the information,  
explanations and self-  
test exercises they need  
to complete the  
mandatory topics on  
BTEC Construction  
Science and  
Mathematics (Level 2)  
as well as Construction  
Science and Materials  
(Levels 3/4). The book

# Read Book Btec First

will be invaluable both to students and teachers as it: includes many diagrams, examples and detailed solutions to help students learn the basic concepts integrates science with construction technology and civil engineering has an early chapter on basic construction technology to help understand technical
