It will help you to: Understand the best way for you to learn Cope with assessments Manage your time Get the most from your work experience Work in a team Use resources Find, organise and interpret your information Make a presentation Get the most out of your BTEC With plenty of activities and case studies to improve your understanding, your Study Skills Guide will be a valuable companion as you work through the course. Includes: A full sample assignment with advice on how you can improve your grade Lots of easily-digestible tips and ideas to help you on your way Write-in skills building section where you can practice essential personal, learning and thinking skills and functional skills

This Revision Workbook delivers hassle-free hands-on practice for the externally assessed units.

Written by an expert author team of BTEC teachers, verifiers and science professionals so you can be sure the content is reliable, relevant and of the highest quality. Student Book 2 provides a range of optional units and all the extra mandatory units required to support learners studying for the Diploma or Extended Diploma as well as the Biomedical Science, Analytical and Forensic Science and Physical Science Extended Diploma Pathways. Each Student Book has clearly laid out pages with a range of supportive features to aid learning and teaching: * Getting to know your unit sections ensure learners understand the grading criteria and unit requirements. * Getting ready for assessment sections focus on preparation for external assessment with guidance for learners on what to expect. Hints and tips will help them prepare for assessment and sample answers are provided for a range of question types including, short and long answer questions, all with a supporting commentary. * Pause point features provide opportunities for learners to self-evaluate their learning at regular intervals. Each Pause Point feature give learners a Hint or Extend option to either revisit and reinforce the topic or encourage independent research or further study skills. * Case study and Theory into practice features enable development of problem-solving skills and place the theory into real-life situations learners could encounter. * Assessment practice features provide scaffolded assessment practice activities that help prepare learners for assessment. Within each assessment practice activity, a Plan, Do and Review section supports learners' formative assessment by making sure they fully understand what they are being asked to do, what their goals are and how to evaluate the task and consider how they could improve. * Literacy and numeracy activities provide opportunities for reinforcement in these key areas, placing the skills into a sport context. * Dedicated Think future pages provide case studies from the industry, with a focus on aspects of skills development that can be put into practice in a real work environment and further study. This student book covers: Unit 5: Principles and Applications of Science IIUnit 6: Investigative ProjectUnit 7: Contemporary Issues in ScienceUnit 17: Microbiology and Microbiological TechniquesUnit 21: Medical Physics ApplicationsUnit 23: Forensic Evidence, Collection and Analysis

This is a complete learning package for the 2011 specifications supporting both students and tutors to get the best results.

This publication supports your delivery of BTEC Level 3 Nationals Applied Science qualifications and should be read in conjunction with the published specification. It provides an overview of how the qualifications have changed, how the BTEC unit specifications should be used, and how best to deliver the course and assess your learners' progress.
