Applied Science (BTEC) Level 3 Extended Certificate

BTEC National Applied Science Student Book 1 (BTEC Nationals Applied Science 2016). Author:Parmar, Catherine. Each month we recycle over 2.3 million books, saving over 12,500 tonnes of books a year from going straight into landfill sites.

Combining the BTEC team's expertise with the practical experience of top authors and teachers to support learners every step of the way to BTEC success. As well as providing the knowledge and learning for every unit, the Student Book gives learners all the support they need to motivate them to achieve their best.

Combining the BTEC team's expertise with the practical experience of top authors and teachers to support learners every step of the way to BTEC success. As well as providing the knowledge and learning for every unit, the Student Book gives learners all the support they need to motivate them to achieve their best.

This Revision Workbook delivers hassle-free hands-on practice for the externally assessed units.

Written by an expert author team of BTEC teachers, verifiers and science professionals so you can be sure the content is reliable, relevant and of the highest quality. Student Book 2 provides a range of optional units and all the extra mandatory units required to support learners studying for the Diploma or Extended Diploma as well as the Biomedical Science, Analytical and Forensic Science and Physical Science Extended Diploma Pathways. Each Student Book has clearly laid out pages with a range of supportive features to aid learning and teaching: * Getting to know your unit sections ensure learners understand the grading criteria and unit requirements. * Getting ready for assessment sections focus on preparation for external assessment with guidance for learners on what to expect. Hints and tips will help them prepare for assessment and sample answers are provided for a range of question types including, short and long answer questions, all with a supporting commentary. * Pause point features provide opportunities for learners to self-evaluate their learning at regular intervals. Each Pause

Point feature give learners a Hint or Extend option to either revisit and reinforce the topic or encourage independent research or further study skills. * Case study and Theory into practice features enable development of problem-solving skills and place the theory into real-life situations learners could encounter. * Assessment practice features provide scaffolded assessment practice activities that help prepare learners for assessment. Within each assessment practice activity, a Plan, Do and Review section supports learners' formative assessment by making sure they fully understand what they are being asked to do, what their goals are and how to evaluate the task and consider how they could improve. * Literacy and numeracy activities provide opportunities for reinforcement in these key areas, placing the skills into a sport context. * Dedicated Think future pages provide case studies from the industry, with a focus on aspects of skills development that can be put into practice in a real work environment and further study. This student book covers: Unit 5: Principles and Applications of Science II Unit 6: Investigative Project Unit 7: Contemporary Issues in Science Unit 17: Microbiology and Microbiological Techniques Unit 21: Medical Physics Applications Unit 23: Forensic Evidence, Collection and Analysis

This student book supports the level 1/level 2 BTEC First Award in Applied Science - Principles of Applied Science NQF specification for first teaching from September 2012. The book covers all four mandatory units so learners have relevant and specific content to complete the new 2012 award.

This Student Book supports the new BTEC First Award in Application of Science. The first external assessment for this award will take place in March 2014, although the award can be taught from 2012.

Updated to match the new 2012 specifications for Principles of Applied Science & Application of Science, this bright and engaging student book presents science in real contexts at a suitable level for BTEC to support new assessments and progression from Pass to Merit and Distinction. This book is endorsed by Edexcel.

A clearly written and easily accessible textbook that encourages independent study, covering all the core material required for the BTEC First Certificate and Diploma. Knowledge-check questions and activities are included throughout, along with review questions and worked mathematical examples, all of which relate to real-world engineering contexts. Students will gain a valuable insight into various areas of engineering technology and related industries, providing a potential springboard to further training, qualifications, or suitable employment. For those students wishing to progress to BTEC

National, this textbook covers all the vital material required as a prerequisite to NVQ Level 3. New in this edition:

- Updated in line with the 2010 changes to the BTEC First specifications
- Includes detailed information on assessment, featuring example questions and answers
- Layout and design changes provide extra clarity
