In modern times, political and social reform often starts at the bottom of the socioeconomic ladder; common people with ordinary lives enact change through community organization and the desire to improve their own lives and the lives of those around them. Governments that support such movements can experience great advances and achievements in the long term. Cases on Grassroots Campaigns for Community Empowerment and Social Change presents a series of real-world studies on political and social activism in the information age, focusing on how empowerment of minority or underserved populations can serve to enact sweeping reforms regionally, nationally, or globally. This book is a critical resource for political and private actors, including government agencies, community organizers, political parties, and researchers in the social sciences. This reference work features research on timely topics such as women ' s empowerment, poverty, social activism and social change, community building, and empowerment of individuals in a variety of socioeconomic settings and roles.

This title was first published in 2000: Providing a review and assessment of a number of the major features evident in regional planning and development in Europe, this volume contains a series of regional case studies, drawn from current research in various European countries. These illustrate a broad range of theoretical views, which offer perspectives on the operation of the EU Structural Funds and regional restructuring, development and key concerns evident in spatial planning an environmental management and lessons from past experience. The editors collate views to arrive at challenging conclusions and suggestions for future policy priorities.

The African Economic Outlook is an annual review of the recent economic situation and the likely short-term evolution of selected African countries. It is drawn from a country-by-country analysis based on a unique analytical design.
