noun the act of fashioning or producing by cutting into or shaping solid material, as wood. a carved design or figure.

Carving | Definition of Carving at Dictionary.com

Carving is the act of using tools to shape something from a material by scraping away portions of that material. The technique can be applied to any material that is solid enough to hold a form even when pieces have been removed from it, and yet soft enough for portions to be scraped away with available tools.

"This is an absolutely first-rate book for beginners in wood sculpture, well thought out and well executed. It is exceptional in the quality of its illustrations, and contains many original and unusual conceptions and designs."--E. J. Tangerman. In answer to complaints from students that there was no concise, simple text on wood carving, Charles Marshall Sayers, a nationally famous teacher and craftsman, wrote this book. It is still the finest book for the beginning student in wood sculpture. In clear, straightforward language, Sayers carefully guides the reader through the fundamentals--what tools and materials to use, how to use them. There are lessons and designs for incised carving, relief carving, and other cutting methods. Sayers discusses woods suitable for carving, stains and finishes, preliminary and advanced methods of preparing woods for finishing, even how to make a workbench. The 34 illustrated designs for over 34 projects encourage the student to build slowly and methodically a sound, practical technique while creating objects of beauty and utility. All of the projects employ only four tools (one straight parting tool, three different sizes of straight gouges). With this book you can make panels for cabinets, chests, and doors; borders; table aprons; chair and bench rails; circular mirror frame; wall bracket with shelf; bookends; rectangular mirror frame; footstools; guest-book covers; mirror frame with half-circle top; holy water font; and doors. Though "The Book of Wood Carving" is meant for the beginner, experienced carvers will find that Sayers' original conceptions and designs will increase their own pleasure and skill. "Stimulating both by spicy text and large photographs showing every point in processes described . . . [Illustrated with] designs of actual work by the author--a famous teacher and craftsman--and his students and apprentices."--"Books, New York Herald Tribune. "Unabridged (1978) republication of original (1942) edition.

Carving Woodspirits: Beyond the Basics takes a woodcarver beyond basic face carving instructions. This step-by-step tutorial guides the carver through carving a detailed woodspirit face on a walking stick.

From making the first cut to applying the finish, this comprehensive resource covers every aspect of woodcarving. Everything is here for the beginning or advanced woodcarver, from choosing the appropriate wood; setting up a shop, selecting, using, and sharpening tools; and performing all the fundamental techniques, such as the push cut, pull cut, stop cut, and slicing cut. Every general carving style -- from classical to whimsical to rustic -- are detailed, as are the basic steps of power carving. Eight step-by-step projects designed to help newer woodcarvers build proficiency are included along with the plans for the rocking horse featured on the cover. Best of all, a handy resource section and a glossary round out this fully illustrated, must-have resource for all woodcarvers.

Book of projects designed to give beginners the experience of work in a wide number of carving styles.

Full-color, illustrated instructions for learning chip carving, showing how to create borders, rosettes, and lettering.

In this wonderful resource for both novice and veteran carvers, two masters of the craft present detailed instructions and illustrations on how to confidently carve animals, flowers, figures, and more.

When he first envisioned becoming a farmer, author Emmet Van Driesche never imagined his main crop would be Christmas trees, nor that such a tree farm could be more of a managed forest than the conventional grid of perfectly sheared trees. *Carving Out a Living on the Land* tells the story of how Van Driesche navigated changing life circumstances, took advantage of unexpected opportunities, and leveraged new and old skills to piece together an economically viable living, while at the same time respecting the land's complex ecological relationships. From spoon carving to scything, coppicing to wreath-making, *Carving Out a Living on the Land* proves that you don't need acres of expensive bottomland to start your land-based venture, but rather the creativity and vision to see what might be done with that rocky section or ditch or patch of trees too small to log. You can lease instead of buy; build flexible, temporary structures rather than sink money into permanent ones; and take over an existing operation rather than start from scratch. What matters are your unique circumstances, talents, and interests, which when combined with what the land is capable of producing, can create a fulfilling and meaningful farming life.

This one-stop information center contains all the carving and painting how-tos for making realistic songbirds, plus everything from texturing feathers to building legs and feet to planning dramatic poses. Patterns and demonstrations for the bluebird, cedar waxwing and nuthatch.

Whittle a beautiful spoon, comb, pair of dice, and more with this fresh introduction to a folksy craft. *Carve* modernizes a mindful hobby that people have turned to for generations to help them slow down, relax, and connect with the outdoors. Choose from a dozen projects with bespoke details, all are designed to be useful at home or while camping. And because these objects are small, they require only a few hours and a tool or two to complete. You'll also learn how to choose the right knife and wood, helpful information on techniques and safety, and tips for refining, personalizing and maintaining your piece. Whether you're headed to the woods or just to the porch, this pocket-sized guide will have you carving your own unique designs in no time.
