About the CCNA Security Implementing Cisco Network Security (IINS) 210-260 Exam Cisco's objective of the CCNA Security exam is to verify the candidate's understanding, implementation, and verification of security best practices on Cisco hardware and software. The focus points for the exam (which this book prepares you for) are as follows:

CCNA Security 210-260 Official Cert Guide

The CCNA certification validates your skills and knowledge in network fundamentals, network access, IP connectivity, IP services, security fundamentals, and automation and programmability. Here's how to prepare for the exam: Download the exam blueprint. This will be your road map as you prepare. Join the Cisco Learning Network CCNA community.

CCNA - Training & Certifications - Cisco

There is no CCP on the 210-260 version of the CCNA Security. It's very clearly been removed from the objectives with the transition from the 640-554 exam to the 210-260 exam. How does an "official course guide" get released that covers blatantly outdated information?
