The new Pearson Chemistry program combines our proven content with cutting-edge digital support to help students connect chemistry to their daily lives. With a fresh approach to problem-solving, a variety of hands-on learning opportunities, and more math support than ever before, Pearson Chemistry will ensure success in your chemistry classroom. Our program provides features and resources unique to Pearson--including the Understanding by Design Framework and powerful online resources to engage and motivate your students, while offering support for all types of learners in your classroom.

Authored by Paul Hewitt, the pioneer of the enormously successful "concepts before computation" approach, Conceptual Physics boosts student success by first building a solid conceptual understanding of physics. The Three Step Learning Approach makes physics accessible to today's students. Exploration - Ignite interest with meaningful examples and hands-on activities. Concept Development - Expand understanding with engaging narrative and visuals, multimedia presentations, and a wide range of concept-development questions and exercises. Application - Reinforce and apply key concepts with hands-on laboratory work, critical thinking, and problem solving.

SAT* Chemistry Subject Test Crash Course - Gets You a Higher Score in Less Time Our Crash Course is perfect for the time-crunched student, the last-minute studier, or anyone who wants a refresher on the subject. Are you crunched for time? Have you started studying for your SAT* Chemistry Subject Test yet? How will you memorize everything you need to know before the exam? Do you wish there was a fast and easy way to study for the test AND raise your score? If this sounds like you, don't panic. SAT* Chemistry Crash Course is just what you need. Crash Course gives you: Targeted, Focused Review - Study Only What You Need to Know The Crash Course is based on an in-depth analysis of the SAT* Chemistry course description and actual test questions. It covers only the information tested on the exam, so you can make the most of your valuable study time. Our easy-to-read format gives you a crash course in: structure of matter, states of matter, reaction types, stoichiometry, equilibrium, and reaction rates. Expert Test-taking Strategies Our experienced chemistry teacher shares test tips and strategies that show you how to answer the questions you'll encounter on test day. By following our expert tips and advice, you can raise your score. Take REA's Online Practice Exams After studying the material in the Crash Course, go online and test what you've learned. Our practice exam features timed testing, diagnostic feedback, detailed explanations of answers, and automatic scoring analysis. The exams are balanced to include every topic and type of question found on the actual SAT* Chemistry Subject Test, so you know you're studying the smart way.
