A self study exam preparatory guide for financial technical analysis certifications Written by the course director and owner of www.tradermasterclass.com, a leading source of live and online courses in trading, technical analysis, and money management, A Handbook of Technical Analysis: The Practitioner's Comprehensive Guide to Technical Analysis is the first financial technical analysis examination preparatory book in the market. It is appropriate for students taking IFTA CFTE Level I and II (US), STA Diploma (UK), Dip TA (Aus), and MTA CMT Level I, II, and III exams in financial technical analysis, as well as for students in undergraduate, graduate, or MBA courses. The book is also an excellent resource for serious traders and technical analysts, and includes a chapter dedicated to advanced money management techniques. This chapter helps complete a student's education and also provides indispensable knowledge for FOREX, bond, stock, futures, CFD, and option traders. Learn the definitions, concepts, application, integration, and execution of technical-based trading tools and approaches Integrate innovative techniques for pinpointing and handling market reversals Understand trading mechanisms and advanced money management techniques Examine the weaknesses of popular technical approaches and find more effective solutions The book allows readers to test their current knowledge and then check their learning with end-of-chapter test questions that span essays, multiple choice, and chart-based annotation exercises. This handbook is an essential resource for students, instructors, and practitioners in the field. Alongside the handbook, the author will also publish two full exam preparatory workbooks and a bonus online Q&A Test bank built around the most popular professional examinations in financial technical analysis.

The entry-level to Company Secretary course is witnessing a paradigm shift in the methods of learning. The book is an endeavour to provide aspirants of the Company Secretary Executive Entrance Test (CSEET) a complete book to strengthen and incorporate student-centric learning. - ▯ Political Affairs
- ▯ Legal and Other Affairs
- ▯ Recent Current Affairs
- ▯ Presentation and Communication Skills (Viva-Voce)

Test Bank for Introductory Economics and Introductory Macroeconomics and Introductory Microeconomics is an instructor's aid in developing examinations for students to test their comprehension, recall, and ability to analyze and interpret the basic concepts discussed in "Introductory Economics," "Introductory Macroeconomics," and "Introductory Microeconomics." With more than 2,000 five-response, multiple-choice questions, the "Test Bank" reflects the structures of the texts. The questions cover macroeconomic problems, supply and demand, the problem of unemployment, inflation, and measuring economic activity. Other questions cover aggregate demand, aggregate supply and the economy, fiscal problems, money and banking, as well as money, credit and the economy. Some questions deal with monetarist theory, international trade, the foreign exchange market, international economics. Some interesting response choices concern the problems of the dollar, goals, trade-offs, scarcity and choice, specialization, the micro side of demand and supply. Other questions deal with markets at work, consumer choice, production and costs, producer choice (monopoly), producers in competitive markets, capital, and natural resource market. Professors and lecturers of economics and business courses will find the "Test Bank" very useful. Students of economics, whether they are economics majors are just taking the subject as a requirement in another course, will also benefit from it.
