Crusades is a major assessment of the American presidency during the critical period of America at mid-century. The book follows the career of General Dwight D. Eisenhower from 1952, when he decided to leave his NATO command to campaign for the presidency, to his retirement at Gettysburg nearly nine years later. His entry into politics was well-timed. A mood of conservatism was sweeping the country; surveys indicated that the majority of Americans felt it was time for a change from two decades of executive control 'by those who had permitted events to get out of hand.' Parmet based his study of the Eisenhower years on massive research, conversations with leading figures of the era, and previously unreleased documents. Did he choose Richard Nixon as a running mate or was Nixon forced upon him by political necessities? Was the president intimidated by the appearance of power of Joseph McCarthy, and did the Army-McCarthy hearings influence Eisenhower's decision to involve the United States in Vietnam? Was Eisenhower concerned with the lack of progress in civil rights? Was he the right man for the right time in history or was he merely postponing the major crises of the 1960s? Parmet offers a convincing refutation of the idea of the Eisenhower years as being placid or boring. 'No years that contained McCarthy and McCarthyism, a war in Korea, constant fears of nuclear annihilation, and spreading racial violence, could be so described.' For Parmet,
