Do you use the remote to control the Volume on your TV? (TV volume, not cable box volume?) I actually went to the online manual for the Philips 122 remote and it does not say anything on how to program the remote Video Source Button. Here is the manual in RTF format:

The Simple Guide to Home Electronics helps the average person navigate the bewildering array of choices in the ever-changing world of home electronics that impact our day to day lives. A wide variety of topics from lightbulbs to the Internet, TV, Telephone, Cameras, and the Internet of Things (IoT) are explained without all the tech savvy jargon. Each chapter begins with a general overview and practical advice followed by more in-depth information that will give you an understanding of the type of products available and how they work. If you have ever considered disconnecting your cable TV, a smart thermostat or turning on the lights with a voice activated product, then this book is for you. The author's light conversational style along with his own engaging stories, humor and points of view make these complex topics easy to understand. The information is presented in free-standing independent chapters that can referenced over and over again as you replace and update the technology in your home.

The fun and easy way to get up and running quickly withMicrosoft Windows XP Media Center Edition, the new operating systemversion specially outfitted for TV, DVD, video, music, and digitalphoto applications Media Center PCs are the first PCs to feature an easy-to-useinterface and all preconfigured hardware and preloaded softwareneeded to create a complete integrated home entertainmentsystem Explains how to integrate a home computer network with a hometheater system, control connected TVs with the Remote ControlInterface, record TV programs using a TiVo-like recorder, acquireand play back music files, organize digital videos and photos, playDVD movies, and much more Written by the authors of Home Theater For Dummies(0-7645-1801-1)and Wireless Home Networking For Dummies(0-7645-3910-8), who worked closely with Media Center Editionproduct management at Microsoft to complete the book.

The updated 11th edition of the Aeronautical Chart User's Guide by the FAA is a great reference for novice pilots and professionals alike. Printed in full color with detailed examples, this book provides all the information students and pilots need to know about all the symbols and information provided on US aeronautical charts and chart navigation publications. Readers will find information on VFR charts, aeronautical chart symbols, helicopter route charts, flyway planning charts, IFR enroute charts, explanation of IFR enroute terms and symbols, Terminal Procedure Publications (TPPS), explanation of TPP terms and symbols, airspace classifications, and an airspace class table.

This book constitutes the thoroughly refereed post-proceedings of the IFIP-TC6 6th Annual International Working Conference on Active Networks, IWAN 2004, held in Lawrence, KS, USA in October 2004. The 14 revised full papers presented together with one invited paper are organized in topical sections on active networking systems, active networking security, active networking applications, mobile active networks, and active networking management.

Effective risk communication is essential to the well-being of any organization and those people who depend on it. Ineffective communication can cost lives, money and reputations. Communicating Risks and Benefits: An Evidence-Based User's Guide provides the scientific foundations for effective communications. The book authoritatively summarizes the relevant research, draws out its implications for communication design, and provides practical ways to evaluate and improve communications for any decision involving risks and benefits. Topics include the communication of quantitative information and warnings, the roles of emotion and the news media, the effects of age and literacy, and tests of how well communications meet the organization's goals. The guide will help users in any organization, with any budget, to make the science of their communications as sound as the science that they are communicating.
