This is a political treatise that deals with the China issue from a completely new perspective. Disparaging as he may sound, from page to page, toward "the old system" and the Communist Party's various wiles, the author demonstrates his mysteriously profound understanding of the Chinese leadership. Few men in North America would have such prescient perception of what is happening in Asia's (and also the world's) most populous country. It is a work of amazing knowledge and brilliance!

This book covers the whole system of Socialism with Chinese Characteristics, dealing with Deng Xiaoping's theory, the socialist market economy, a moderately well-off (Xiaokang) society, China's practice and theory of socialist democracy, human rights, and Xi Jinping's Marxism. In short, the resolute focus is the Reform and Opening-Up. Socialism with Chinese Characteristics is one of the most important global realities today. However, the concept and its practice remain largely misunderstood outside China. This book sets to redress such a lack of knowledge, by making available to non-Chinese speakers the sophisticated debates and conclusions in China concerning socialism with Chinese Characteristics. It presents this material in a way that is both accessible and thorough.

This book is part of a series which makes available to English-speaking audiences the work of the individual Chinese economists who were the architects of China's economic reform. The series provides an inside view of China's economic reform, revealing the thinking of the reformers themselves, unlike many other books on China's economic reform which are written by outside observers. Du Runsheng (1913-) has made major contributions to policy making on land reform, rural development and science policy. Politically active from the 1930s, when he served as a guerrilla leader fighting Japanese aggression, and in the 1940s, when he was involved in the War of Liberation (1945-49), he has held many Chinese Communist Party posts. He was secretary-general of the Chinese Academy of Sciences in the late 1950s, responsible for drafting the 1961 policy document which urged respect for intellectuals. Attacked and persecuted during the Cultural Revolution (1966-76), he was for most of the 1980s in charge of research on rural economic reform and rural development strategies. The book is published in association with China Development Research Foundation, one of the leading economic and social think tanks in China, where many of the theoretical foundations and policy details of economic reform were formulated.
