Why Plan Strategy? Is church growth theory incompatible with belief in the sovereignty of God? Does adherence to church growth principles leave out dependency upon the work of the Holy Spirit? C. Peter Wagner answers no to both questions. He further believes that no task could be more crucial than fulfilling the Great Commission in our generation, and how to approach and plan for the execution of this task is the questions of the day. *Strategies for Church Growth* addresses this key issue in a biblically pragmatic way. It brings together for the first time many principles of evangelism and missions which have proved, through recent

research and experience, to be effective in implementing the Great Commission. It also unifies, in concise form, the latest research of the Church Growth Movement, the Lausanne Committee on World Evangelization, the U.S. Center for World Mission and numerous other key contributors to the recent explosion of evangelistic technology. Among the topics explored are: - the major components of strategy - choosing the appropriate strategy - advantages of having a strategy - the theology of church growth - the harvest principle and soil testing - why you should aim for church growth - characteristics of good goals - the meaning of mission and evangelism - how to target your outreach

Or as a person who lived your life out on the limb and trusted God enough to live in crazy faith? Noah looked crazy when he started building the ark . . . until it started raining. It was crazy for Moses to lead a nation of people into the desert away from Egypt . . . until the Red Sea parted. are many things that seem normal or average today that at one point in time seemed absolutely crazy. Smartphones, Wi-Fi, and even the electric light bulb were all groundbreaking, history-making inventions that started out as crazy ideas. Our see-it-to-believe-it generation tends to have a hard time exercising true faith—one that steps out, takes action, and sees mountain-moving results. Many of us would rather play it safe and stand on the sidelines, but it's crazy faith that helps us see God move and reveals His promises. In *Crazy Faith*, Pastor Michael Todd shows us how to step out in faith and dive into the purposeful life of trusting God for the impossible. Even if you have to start with baby faith or maybe faith, you can become empowered to let go of your lazy faith, trust God through your hazy faith, and learn to live a lifestyle of crazy faith. With powerful stories of modern-day faith warriors who take their cues

God's not looking for somebody to give Him all the reasons why His plans can't happen. He's looking for somebody to believe they will happen. In fact, He has so much He wants to do through you. The question is, Are you crazy enough to believe it?

Think about your church for a moment. Is it

growing? Is it diminishing? Is it somewhere in between? Acclaimed church leader, blogger, and founder and chief strategic officer of The Unstuck Group, Tony Morgan has identified the seven stages of a church's lifecycle that range from the hopeful and optimistic days of launch, to the stagnating last stages of life support.

Regardless of the stage in which you find your church, it carries with it the world's greatest mission—to "go and make disciples of all the nations . . ." With eternity at stake the Church should be doing most everything within its power to see lives changed forever. The Church should strive for the pinnacle of the lifecycle, where they are continually making new disciples and experiencing what Morgan refers to as "sustained health." In *The Unstuck Church*, Morgan unpacks each phase of the church lifecycle, and offers specific and strategic next steps the church leader can take to find

it's way to sustained health . . . and finally become unstuck. The Unstuck Church is a call for honest an assessment of where your church sits on the lifecycle, and a challenge to move beyond it.

Pastor Bob Russell shares the ten principles upon which Southeast Christian Church, one of the largest and fastest growing churches in America, was founded. He shares not only the story of one of the most amazing churches in America, but also what your church can become if you follow the principles and allow God to build your church. Can the church truly be the "city on a hill that cannot be hidden" that Jesus talked about in the Sermon on the Mount? Can it grow large enough to attract throngs of seekers and yet be loving enough to care for each individual that comes? Bob Russell, pastor of Southeast Christian Church—one of the largest and fastest

growing churches in America—says that it most certainly can. But it can only be done when we are submissive to God's will and allow Him to build that church. In the pages of this far-sighted, uncompromising book, Bob Russell and his son Rusty share the ten principles upon which this remarkable church was founded. Throughout the book, you will see God's mighty power at work in a church that began in 1962 with only 50 members and has now grown to over 14,000 and has become a bustling "city on a hill" whose beaming faith powerfully impacts its community and the world. This book shares not only the story of one of the most amazing churches in America but also the story of what your church can become as you follow these ten time-tested principles and allow God to build your church.
