A new series of beautiful hardcover nonfiction classics, with covers designed by Coralie Bickford-Smith World-changing ideas meet eye-catching design: the best titles of the extraordinarily successful Great Ideas series are now packaged in Coralie Bickford-Smith 's distinctive, award-winning covers. Whether on a well-curated shelf or in your back pocket, these timeless works of philosophical, political, and psychological thought are absolute must-haves for book collectors as well as design enthusiasts. A philosophy that saw self-possession as the key to an existence lived "in accordance with nature," Stoicism called for the restraint of animal instincts and the severing of emotional ties. These beliefs were formulated by the Athenian followers of Zeno in the fourth century BC, but it was in Seneca that the Stoics found their most eloquent advocate. Stoicism, as expressed in the Letters, helped ease pagan Rome's transition to Christianity, for it upholds upright ethical ideals and extols virtuous living, as well as expressing disgust for the harsh treatment of slaves and the inhumane slaughter witnessed in the Roman arenas. Seneca's major contribution to a seemingly unsympathetic creed was to transform it into a powerfully moving and inspiring declaration of the dignity of the individual mind. Robin Campbell's distinguished translation captures Seneca's humour and concise, memorable aphorisms and his introduction discusses the tensions between Seneca's philosophy and his turbulent career as adviser to the tyrannical emperor Nero. Collecting the most incisive and influential writings of one of Rome's finest orators, Cicero's Selected Works is translated with an introduction by Michael Grant in Penguin Classics. Lawyer, philosopher, statesman and defender of Rome's Republic, Cicero was a master of eloquence, and his pure literary and oratorical style and strict sense of morality have been a powerful influence on European literature and thought for over two thousand years in matters of politics, philosophy, and faith. This selection demonstrates the diversity of his writings, and includes letters to friends and statesmen on Roman life and politics; the vitriolic Second Philippic Against Antony; and his two most famous philosophical treatises, On Duties and On Old Age - a celebration of his own declining years. Written at a time of brutal political and social change, Cicero's lucid ethical writings formed the foundation of the Western liberal tradition in political and moral thought that continues to this day. For more than seventy years, Penguin has been the leading publisher of classic literature in the English-speaking world. With more than 1,700 titles, Penguin Classics represents a global bookshelf of the best works throughout history and across genres and disciplines. Readers trust the series to provide authoritative texts enhanced by introductions and notes by distinguished scholars and contemporary authors, as well as up-to-date translations by award-winning translators.

Packed with information, advice, and Abbie's unique outlaw wisdom ("Avoid all needle drugs--the only dope worth shooting is Richard Nixon."), Steal This Book is a timeless reminder that, no matter what the struggle, freedom is always worth fighting for. Winner of the 2018 Nebraska Book Award for Fiction A rousing, suspenseful debut novel—True Grit meets Catch Me If You Can—based on the forgotten true story of a Robin Hood of the American frontier who pulls off the first successful kidnapping for ransom in U.S. history " A kidnapper with a social-justice mission " (Time), Pat Crowe was once the most wanted man in America. World Chase Me Down resurrects him, telling the electrifying story of the first great crime of the last century: how in 1900 the out-of-work former butcher kidnapped the teenage son of Omaha 's wealthiest meatpacking tycoon for a ransom of \$25,000 in gold, and then burgled, safe-cracked, and bond-jumped his way across the country and beyond, inciting a manhunt that was dubbed " the thrill of the nation " and a showdown in the court of public opinion between the haves and have-nots—all the while plotting a return to the woman he never stopped loving. As if channeling Mark Twain and Charles Portis, Andrew Hilleman has given us a character who is bawdy and soulful, grizzled, salty, and hard-drinking, and with a voice as unforgettable as that of Lucy Marsden in Alan Gurganus ' s Oldest Living Confederate Widow Tells All—an anthero you can ' t help rooting for.

'However one defines Man, the same definition applies to us all. This is sufficient proof that there is no essential difference within mankind.' (Laws I.29-30) Cicero's The Republic is an impassioned plea for responsible government written just before the civil war that ended the Roman Republic in a dialogue following Plato. Drawing on Greek political theory, the work embodies the mature reflections of a Roman ex-consul on the nature of political organization, on justice in society, and on the qualities needed in a statesman. Its sequel, The Laws, expounds the influential doctrine of Natural Law, which applies to all mankind, and sets out an ideal code for a reformed Roman Republic, already half in the realm of utopia. This is the first complete English translation of both works for over sixty years and features a Lucid Introduction, a Table of Dates, notes on the Roman constitution, and an Index of Names.

This is the story of LSD told by a concerned yet hopeful father, organic chemist Albert Hofmann. He traces LSDs path from a promising psychiatric research medicine to a recreational drug sparking hysteria and prohibition.We follow Dr. Hofmanns trek across Mexico to discover sacred plants related to LSD, and listen in as he corresponds with other notable figures about his remarkable discovery.Underlying it all is Dr. Hofmanns powerful conclusion that mystical experience may be our planets best hope for survival. Whether induced by LSD, meditation, or arising spontaneously, such experiences help us to comprehend the wonder, the mystery of the divine in the microcosm of the atom, in the macrocosm of the spiral nebula, in the seeds of plants, in the body and soul of people.Now, more than sixty years after the birth of Albert Hofmanns problem child, his vision of its true potential is more relevant, and more needed, than ever.
