Citroen with hybrid engines and components would reduce fuel consumption by 43 percent at an increase of \$6,000 per vehicle. The book focuses on fuel consumption--the amount of fuel consumed in a given driving distance--because energy savings are directly related to the

amount of fuel used. In contrast, fuel economy measures how far a vehicle will travel with a gallon of fuel. Because fuel consumption data indicate money saved on fuel purchases and reductions in carbon dioxide emissions, the book finds that vehicle stickers should provide consumers with fuel consumption data in

This intellectual portrait
of Romain Rolland
(1866-1944)--French
novelist, musicologist,
dramatist, and Nobel
prizewinner in
1915--focuses on his
experiments with
political commitment
against the backdrop of

European history

between the two world wars. Best known as a biographer of

Beethoven and for his novel, *Jean-Christophe*, Rolland was one of those nonconforming writers who perceived a crisis of bourgeois society in Europe before the Great War, and who consciously worked to discredit and reshape

that society in the
interwar period.
Analyzing Rolland's
itinerary of engaged
stands, David James
Fisher clarifies aspects
of European cultural
history and helps
decipher the ambiguities
at the heart of all forms
of intellectual
engagement. Moving
from text to context,
Fisher organizes the

book around a series of debates--Rolland's public and private collisions over specific committed stands--introducing the reader to the polemical style of French intellectual discourse and offering insight into what it means to be a responsible intellectual. Fisher presents Rolland's private

ruminations, extensive research, and reexamination of the function and style of the French man of letters.

He observes that Rolland experimented with five styles of commitment: oceanic mysticism linked to progressive, democratic politics; free thinking linked to antiwar dissent; pacifism and,

ultimately, Gandhism;
antifacism linked to anti-
imperialism, antiracism,
and all-out political
resistance to fascism;
and, most
controversially, fellow
traveling as a form of
socialist humanism and
the positive side of
antifascism. Fisher
views Rolland's
engagement historically
and critically, showing

that engaged intellectuals of that time were neither naive propagandists nor dupes of political parties. David James Fisher makes a case for the committed writer and hopes to re-ignite the debate about commitment. For him, Romain Rolland sums up engagement in a striking, dialectical
