Courier companies in China have issued notices of a ban on the export to Hong Kong of items including black clothing, and a courier firm worker affirms the ban. Protesters have adopted as their ...

Darren Byler theorizes the contemporary Chinese colonization of the Uyghur Muslim minority group in the northwest autonomous region of Xinjiang, showing how it has led to what he calls terror capitalism--a configuration of ethno-racialization, surveillance, and mass detention that in this case promotes settler colonialism.

A detective returns to the Chinatown of his childhood in this " classic noir, filled with longing, violence, and that uniquely urban melancholy " (Richard Price). After four years on the NYPD, Det. Jack Yu is transferred to the precinct of his childhood: Chinatown. Though he ’ s the only officer on the beat who speaks Chinese, he ’ s not entirely at home in the old neighborhood. His father is dead, his childhood friends are now gangsters, and the memory of his murdered blood brother is all too fresh. A secret society of organized smugglers and gamblers run half the precinct; vicious gangs rule the rest. Assigned to catch a serial rapist, he ’ s just getting used to the streets again when community leader and tong boss Uncle Four is gunned down. And his beautiful young mistress, just arrived from Hong Kong, goes missing. The 99% white, English-speaking force doesn ’ t know where to begin, and it ’ s up to Jack to plunge himself into the secretive, closed community of his youth—and come to terms with his painful past—as he searches for a killer lurking just beyond his grasp. " Chang has a cool, measured style that lets in some light . . . on a society that lives by its own rules. " —The New York Times Book Review " For readers who relish noir suspense, it doesn ’ t get much better than this stunning novel. " —The Boston Globe " All the expected locales are here—gambling and dance halls, brothels, secret societies—but the author, who grew up in Chinatown, keeps things fresh by inserting Chinese phrases and explicating cultural folkways on nearly every page . . . This is a nasty, terse slice of noir. " —Washington Post Book World " Chinatown Beat is a classic noir filled with longing, violence, and that uniquely urban melancholy, but it also brings something new to the table, a loving specificity of a people and place, the multicultures of New York ’ s Chinatown, that has rarely if ever been encountered in fiction before. A real discovery. " —Richard Price, author of Lush Life, a New York Times Notable Book of the Year

In The Coming Man from Canton Christopher W. Merritt mines the historical and archaeological record of the Chinese immigrant experience in Montana to explore new questions and perspectives. During the 1860s Chinese immigrants arrived by the thousands, moving into the Rocky Mountain West and tenaciously searching for prosperity in the face of resistance, restriction, racism, and armed hostility from virtually every ethnic group in American society. As second-class citizens, Chinese immigrants remained largely insular and formed their own internal governments as well as labor and trade networks, typically establishing communities apart from the main towns. Chinese miners, launderies, restaurant keepers, gardeners, railroad laborers, and other workers became a separate but integral part of the American experience in the Intermountain West. Although Chinese immigrants constituted more than 10 percent of the Montana Territory’s total population by 1870, the historical records provide a biased and narrow perspective, as they were generally written by European American community members. Merritt uses the statewide Montana context to show the diversity of Chinese settlements that has often been neglected by archival studies. His research highlights how the legacy of the Chinese in Montana is, or is not, reflected in modern Montana identity and how scholars, educators, professionals, and the public can alter the existing perception of this population as the "other" and perceive it instead an integral part of Montana’s past.

Why have so many central and inner cities in Europe, North America and Australia been so radically revamped in the last three decades, converting urban decay into new chic? Will the process continue in the twenty-first century or has it ended? What does this mean for the people who live there? Can they do anything about it? This book challenges conventional wisdom, which holds gentrification to be the simple outcome of new middle-class tastes and a demand for urban living. It reveals gentrification as part of a much larger shift in the political economy and culture of the late twentieth century. Documenting in gritty detail the conflicts that gentrification brings to the new urban "frontiers", the author explores the interconnections of urban policy, patterns of investment, eviction, and homelessness. The failure of liberal urban policy and the end of the 1980s financial boom have made the end-of-the-century city a darker and more dangerous place. Public policy and the private market are conspiring against minorities, working people, the poor, and the homeless as never before. In the emerging revanchist city, gentrification has become part of this policy of revenge.

Broken Stars, edited by multi award-winning writer Ken Liu--translator of the bestselling and Hugo Award-winning novel The Three Body Problem by acclaimed Chinese author Cixin Liu-- is his second thought-provoking anthology of Chinese short speculative fiction. Some of the included authors are already familiar to readers in the West (Liu Cixin and Hao Jingfang, both Hugo winners); some are publishing in English for the first time. Because of the growing interest in newer SFF from China, virtually every story here was first published in Chinese in the 2010s. The stories span the range from short-shorts to novellas, and evoke every hue on the emotional spectrum. Besides stories firmly entrenched in subgenres familiar to Western SFF readers such as hard SF, cyberpunk, science fantasy, and space opera, the anthology also includes stories that showcase deeper ties to Chinese culture: alternate Chinese history, chuanyue time travel, satire with historical and contemporary allusions that are likely unknown to the average Western reader. While the anthology makes no claim or attempt to be "representative" or "comprehensive," it demonstrates the vibrancy and diversity of science fiction being written in China at this moment. In addition, three essays at the end of the book explore the history of Chinese science fiction publishing, the state of contemporary Chinese fandom, and how the growing interest in science fiction in China has impacted writers who had long labored in obscurity. Stories include: " Goodnight, Melancholy " by Xia Jia " The Show of Jinyang " by Zhang Ran " Broken Stars " by Tang Fei " Submarines " by Han Song " Sailing and the Koreans " by Han Song " Under a Dangling Sky " by Cheng Jingbo " What Has Passed Shall in Kinder Light Appear " by Baoshu " The New Year Train " by Hao Jingfang " The Robot Who Liked to Tell Tall Tales " by Fei Dao " Moonlight " by Liu Cixin " The Restaurant at the End of the Universe: Laba Porridge" by Anna Wu " The First Emperor ’ s Games " by Ma Boyong " Reflection " by Gu Shi " The Brain Box " by Regina Kanyu Wang " Coming of the Light " by Chen Qiufan " A History of Future Illnesses " by Chen Qiufan Essays: " A Brief In Chinese Science Fiction and Fandom, " by Regina Kanyu Wang, " A New Continent for China Scholars: Chinese Science Fiction Studies " by Mingwei Song " Science Fiction: Embarrassing No More " by Fei Dao For more Chinese SF in transtation, check out Invisible Planets. At the Publisher’s request, this title is being sold without Digital Rights Management Software (DRM) applied.

A photographic record of Kowloon Walled City - a city within a city, now demolished and its 35,000 inhabitants rehoused. Containing interviews and commentary, the book tells the city’s history, and how the self-sufficient community lived and worked in so little space in such apparent harmony.

Told in dual narrative, This Is My Brain in Love is a stunning YA contemporary romance, exploring mental health, race, and, ultimately self-acceptance, for fans of I Am Not Your Perfect Mexican Daughter and Emergency Contact. Jocelyn Wu has just three wishes for her junior year: To make it through without dying of boredom, to direct a short film with her BFF Priya Venkatram, and to get at least two months into the year without being compared to or confused with Peggy Chang, the only other Chinese girl in her grade. Will Domenici has two goals: to find a paying summer internship, and to prove he has what it takes to become an editor on his school paper. Then Jocelyn’s father tells her their family restaurant may be going under, and all wishes are off. Because her dad has the marketing skills of a dumpling, it’s up to Jocelyn and her unlikely new employee, Will, to bring A-Plus Chinese Garden into the 21st century (or, at least, to Facebook). What starts off as a rocky partnership soon grows into something more. But family prejudices and the uncertain future of A-Plus threaten to keep Will and Jocelyn apart. It will take everything they have and more, to save the family restaurant and their budding romance.

As the twenty-first century dawns, China stands at a crossroads. The largest and most populous country on earth and currently the world’s second biggest economy, China has recently reclaimed its historic place at the center of global affairs after decades of internal chaos and disastrous foreign relations. But even as China tentatively reengages with the outside world, the contradictions of its development risks pushing it back into an era of insularity and instability—a regression that, as China’s recent history shows, would have serious implications for all other nations. In Restless Empire, award-winning historian Odd Arne Westad traces China’s complex foreign affairs over the past 250 years, identifying the forces that will determine the country’s path in the decades to come. Since the height of the Qing Empire in the eighteenth century, China’s interactions—and confrontations—with foreign powers have caused its worldview to fluctuate wildly between extremes of dominance and subjugation, emulation and defiance. From the invasion of Burma in the 1760s to the Boxer Rebellion in the early 20th century to the 2001 standoff over a downed U.S. spy plane, many of these encounters have left Chinese with a lingering sense of humiliation and resentment, and inflamed their notions of justice, hierarchy, and Chinese centrality in world affairs. Recently, China’s rising influence on the world stage has shown what the country stands to gain from international cooperation and openness. But as Westad shows, the nation’s success will ultimately hinge on its ability to engage with potential international partners while simultaneously safeguarding its own strength and stability. An in-depth study by one of our most respected authorities on international relations and contemporary East Asian history, Restless Empire is essential reading for anyone wishing to understand the recent past and probable future of this dynamic and complex nation.

When reading the Chinese city, which this book sets out to do, it is not the well-known cities such as Beijing, Shanghai, and Xi an that are in the focus of attention, but rather the essentially Chinese of the Chinese city, those characteristics or attributes that are more or less shared by all Chinese cities. The spotlight is on their spatial grammar, their syntax, in short: their code. Only by deciphering their common traits a view to the underlying structure of Chinese cities is opened, and we can begin to reasonably evaluate and classify the diversity of impressions. Deciphering the code of the Chinese city also enables the author to read new Chinese towns designed by Western architects. Thus, readers are provided with valuable insight on China’s booming urbanization and urban development.
