This issue of *Surgical Clinics of North America* focuses on Wound Management and is edited by Drs. Michael D. Caldwell and Michael J. Harl. Articles will include: Complex wounds calciphylaxis and burns; What makes wounds chronic; Clinical management of difficult and slow-healing wounds; The effect of comorbidities on wound healing; Foot surgery for chronic non-healing wounds; The role of biofilms in wound healing; Plastic surgery techniques for wound coverage; Biologic and synthetic skin substitutes and "smart" wound dressings/coverings; Bacteria and wound healing; Use of hyperbaric oxygen therapy as an adjunct to wound healing; The history of wound healing; and more!

This fascinating chronicle of how the character of American society revealed itself under the duress of World War II "place(s) today's myriad social traumas and dislocations in perspective." -- George Will, *Washington Post* The Second World War exists in the American historical imagination as a time of unity and optimism. In 1942, however, after a series of defeats in the Pacific and the struggle to establish a beachhead on the European front, America seemed to be on the brink of defeat and was beginning to splinter from within. Exploring this precarious moment, Tracy Campbell paints a portrait of the deep social, economic, and political fault lines that pitted factions of citizens against each other in the post-Pearl Harbor era, even as the nation mobilized, government-aided industrial infrastructure blossomed, and parents sent their sons off to war. This captivating look at how American society responded to the greatest stress experienced since the Civil War reveals the various ways, both good and bad, that the trauma of 1942 forced Americans to redefine their relationship with democracy in ways that continue to affect us today.

In 2008 for the first time the majority of the planet's inhabitants lived in cities and towns. Becoming globally urban has been one of mankind's greatest collective achievements over time. Written by leading scholar, this is the first detailed survey of the world's cities and towns from ancient times to the present day.

The world has seen dramatic changes since the publication of the first edition of *The Oxford Companion to Politics of the World* in 1993. In the post-Cold War world, globalization now offers wealth and opportunities on a broader scale, as well as greater international harmony, but threatens to reinforce the advantage gap between wealthy and poor regions and intensify environmental degradation. Conflict and squalor--expressed in brutal brushfire wars, epidemics, and chronic underdevelopment--vie with equally dramatic accounts of growth and democracy associated with a liberal political order and the global diffusion of trade, investment, and communications. Drawing on the breadth of the first edition, this updated edition reflects the changing world with a reassessment of many of the core themes of the Companion, and new articles on the people, concepts, and events that have shaped the world since 1993. The second edition includes biographies of Kofi Annan, Tony Blair, Bill Clinton, and Gerhard Schröder; articles on events such as the Rwandan Genocide and the war in Kosovo; and coverage of international trade developments such as NAFTA and the World Trade Organization. Eighty-seven of the 672 articles in the Second Edition are completely new; most others are thoroughly revised. This edition also features a substantial new set of articles, a dozen essays on critical issues written by influential figures. Recognizing the importance of including varying viewpoints, the editors have commissioned these essays to provide an informed and often passionate debate on controversial topics. Discussions include Lani Guinier and Glenn Loury on Affirmative Action; Francis Fukuyama and Milton Fisk on the Limits of Liberal Democracy; and Lloyd Axworthy and John Bolton on the United Nations. The contributors discuss nearly every nation in the world, including extensive information on institutions, political parties, leaders, and the sources of political mobilization and conflict. The volume also includes biographies of more than seventy-five

political leaders and thinkers who have shaped the contemporary political world. Articles include detailed discussions of critical historical developments and events, concepts, international law, and organizations. The Oxford Companion to Politics of the World, Second Edition is an accessible, timely, thought-provoking, and comprehensive reference that captures the complexity and vitality of contemporary world affairs.

This encyclopedia captures the experiences of women throughout world history and illuminates how they have influenced and been influenced by these historical, social, and demographic changes. It contains over 1,300 signed articles covering six main areas: biographies; geography and history; comparative culture and society; organizations and movements; womens and gender studies; and topics in world history.

The Oxford Handbook of Global Modernisms expands the scope of modernism beyond its traditional focus on English and Irish literature to explore the contributions of artists from countries and regions like the US, Cuba, Spain, the Balkans, China, Japan, India, Vietnam, and Nigeria.

Assesses the impact of the enormous carnage of the Civil War on every aspect of American life from a material, political, intellectual, cultural, social, and spiritual perspective.

This sweeping reference work covers every aspect of the Cold War, from its ignition in the ashes of World War II, through the Berlin Wall and the Cuban Missile Crisis, to the collapse of the Soviet Union in 1991. The Cold War superpower face-off between the Soviet Union and the United States dominated international affairs in the second half of the 20th century and still reverberates around the world today. This comprehensive and insightful multivolume set provides authoritative entries on all aspects of this world-changing event, including wars, new military technologies, diplomatic initiatives, espionage activities, important individuals and organizations, economic developments, societal and cultural events, and more. This expansive coverage provides readers with the necessary context to understand the many facets of this complex conflict. The work begins with a preface and introduction and then offers illuminating introductory essays on the origins and course of the Cold War, which are followed by some 1,500 entries on key individuals, wars, battles, weapons systems, diplomacy, politics, economics, and art and culture. Each entry has cross-references and a list of books for further reading. The text includes more than 100 key primary source documents, a detailed chronology, a glossary, and a selective bibliography. Numerous illustrations and maps are inset throughout to provide additional context to the material. Includes more than 1,500 entries covering all facets of the Cold War from its origins to its aftermath, including all political, diplomatic, military, social, economic, and cultural aspects Incorporates the scholarship of more than 200 internationally recognized contributors from around the world, many writing about events and issues from the perspective of their country of origin Offers more than 100 original documents—a collection that draws heavily on material from archives in China, Eastern Europe, and the former Soviet Union Provides hundreds of powerful images and dozens of informative maps detailing specific military conflicts and movements of various groups Includes a detailed chronology of important events that occurred before, during, and after the Cold War

Fills a gap in scholarship on an increasingly important field within Political Science. Comparative Politics, the discipline devoted to the politics of other countries or peoples, has been steadily gaining prominence as a field of study, allowing politics to be viewed from a wider foundation than a concentration on domestic affairs would permit.
