Women around the world have responded to Cara Alwill Leyba ' s Girl Code with a resounding YES. Companies like Kate Spade and Macy ' s have brought her in to teach " the Code. " Inc. magazine named Girl Code one of the " Top 9 Inspiring Books Every Female Entrepreneur Should Read " alongside Lean In, #Girlboss, and Thrive. A few years ago, I made a crazy claim in the first edition of Girl Code: that in today ' s competitive marketplace, the fiercest thing a female entrepreneur can do is to support other women. Something dynamic happens when women genuinely show up for each other. When we lose the facades, cut the bullsh\*t, and truly have each other ' s backs. When we stop pretending everything is perfect, and show the messy, beautiful parts of ourselves and our work—which all look awfully similar. When we talk about our fears, our missteps, and our breakdowns. And most importantly, when we share our celebrations, our breakthroughs, and our solutions. I ' m convinced that there ' s no reason to hoard information, connections, or insight. Wisdom is meant to be shared, so let ' s start sharing what we ' ve learned to make each other better. Let ' s start building each other up. Let ' s live up to our potential and start ruling the world. Girl Code is a roadmap for female entrepreneurs, professional women, " side hustlers " (those with a day job plus a part-time small business), and anyone in between. This book won ' t teach you how to build a multimillion-dollar company. It won ' t teach you about systems or finance. But it will teach you how to build confidence in yourself, reconnect with your "why," eradicate jealousy, and ultimately learn the power of connection. Because at the end of the day, that ' s what life and business are all about.

"You are not born an entrepreneur. It's a skill that you learn along the way." When the skincare company Rodial launched its cult 'snake' serum, the press quickly called the business an 'overnight success'. However, Rodial's founder Maria Hatzistefanis had been toiling for 18 years, building the company from scratch in her bedroom. Now, the beauty boss sets out to demonstrate in this very accessible book that its success stemmed from sheer hard work, tireless efforts and a lot of patience. Fashion-loving Maria set out with a dream to build a beauty business and - despite not excelling at school, and being fired from her first job - she has achieved it. She did it by dreaming big, working hard, surrounding herself with the best, taking risks, creating buzz and building her own personal brand, which is now a favourite with high-profile models and media personalities including Poppy Delevingne, Daisy Lowe and Kylie Jenner. Crucially, she believes anyone can do this and her book, brimming with good sense, great advice, tips and secrets - all presented in an easy, friendly style - shows how.

\*Based on in-depth interviews with more than 200 leading entrepreneurs, [including the founders of LinkedIn, Chipotle, eBay, Under Armour, Tesla Motors, SpaceX, Spanx, Airbnb, PayPal, JetBlue, Gilt Group, Theranos, and Dropbox], a business executive and senior fellow at [the Harvard Kennedy School] identifies the six essential disciplines needed to transform your ideas into real-world successes, whether you're an innovative manager or an aspiring entrepreneur"--

\*American women are starting businesses at nearly twice the rate that men are, but only three percent of female business owners have revenues of over one million dollars. Most women entrepreneurs are stuck at the 'mom and pop' level, just getting by, or in many cases, running out of cash. Julia Pimsleur shares her ... story of building her own company and raising millions in capital in a guide for women like her who have a great idea and need to find the resources to take it into the big leagues"--Amazon.com.

David Hall has spent years trying to discover what distinguishes the entrepreneur from the ordinary mortal. It's been a challenge, since no two entrepreneurs are quite the same. But intriguingly Hall has uncovered the common core of talent and mindset that makes them stand-out from mainstream of modern business men and business women. He calls this behavioural code the Entrecode - a mix of traits, mindsets and abilities which combine to enable true entrepreneurial success. This book describes his quest to crack the code, by years of painstaking research and analysis. It was only when he brought in a sports trainer and neuroscientist from America, that he finally succeeded in identifying the secrets of the Entrecode. The timing could not be better, as the western world languishes in the shadow of the longest recession it has ever experienced. New jobs must be created to replace the old. Now is the time to do it. And we need successful entrepreneurs more than ever before.

As an entrepreneur, Anna Akbari learned that one of the best things about startups is their ability to " pivot " quickly—basically a euphemism for failing and starting over. And she quickly found that personal success is no different. It ' s not just about developing and following the right process but also having a good idea. And that demands rigor and daily maintenance—far beyond a few positive affirmations. Like any Silicon Valley startup, the business of life is not as glamorous as its Instagram account would make it seem. What do you do when planning is not an option? When control is out of your reach? You isolate the small stuff, experiment constantly, and use the results to lay a more sustainable foundation for the future. You validate your idealized vision by testing it out in bite-sized increments. You see what sticks, integrate, and move forward. And inevitably, you experience a series of failures along the way, but those failures are key to your next success. Living a start up life is about maximizing flexibility and measuring on-going results, not avoiding failure or reaching one particular end goal. It's about embracing defeat, analyzing it, and failing up. In Startup Your Life, Akbari shows that after all, it's often the stumbles that pave the way for real happiness.

If building a successful business has been a struggle for you then this book is the key to unlocking success mysteries. Sandra Baptist covers the key tenets of Marketing, Business, Sales, Numbers and Mindset and offers her FABULOUS3 Plan for achieving results. This book is exactly what you need to start taking your business to the next level with specific steps and strategies you can implement right away for generating more revenue, creating more profits and growing your business faster.

Everything we know about the world today follows an invisible set of rules-how we work, love, parent, spend our money, and define success. But what if we could remove these outdated ideas and start anew? What would our lives look like if we could redefine the meaning of happiness, purpose, and success? The Code of the Extraordinary Mind blends computational thinking, integral theory, modern spirituality, evolutionary biology, and a little bit of humor to provide a revolutionary framework for re-coding ourselves with new, empowering beliefs and behaviors so we can live extraordinary lives. Throughout, Vishen Lakhiani shares transformative insights from legendary thinkers including Elon Musk, Richard Branson, and Arianna Huffington, among others, helping us to think like the greatest creative minds of our era-questioning, challenging, and creating new rules for our lives. Lakhiani's 10 laws help us retrain our minds to grow and achieve more than we ever thought was possible, showing us that we do not need to follow convention and can succeed on our own terms no matter where we are starting from.
