Emergency Planning
Most county and local governments have developed comprehensive emergency management plans in accordance with State Executive Law, Article 2-B. Such plans coordinate the collective response of that local government, within its borders, and provide for a mechanism to use all of the existing resources.

fundamentals and encourages emergency and homeland security managers to engage the whole community in addressing all risks that might impact their jurisdictions. While CPG 101 maintains its link to previous guidance, it also reflects the reality of the current operational planning environment. This Guide integrates key concepts from national preparedness policies and doctrines, as well as lessons learned from disasters, major incidents, national assessments, and grant programs. CPG 101 provides methods for planners to: Conduct community-based planning

Bookmark File PDF Comprehensive Emergency

that engages the whole community by using a planning process that represents the actual population in the community and involves community leaders and the private sector in the planning process; Ensure plans are developed through an analysis of risk; Identify operational assumptions and resource demands; Prioritize plans and planning efforts to support their seamless transition from development to execution for any threat or hazard; Integrate and synchronize efforts across all levels of government. CPG 101 incorporates the following concepts from

Bookmark File PDF Comprehensive Emergency

operational planning
research and day-to-day
experience: The process of
planning is just as

important as the resulting
document; Plans are not
scripts followed to the
letter, but are flexible and
adaptable to the actual
situation; Effective plans
convey the goals and
objectives of the intended
operation and the actions
needed to achieve them.

Successful operations occur
when organizations know
their roles, understand how
they fit into the overall
plan, and are able to
execute the plan.

Comprehensive Preparedness
Guide (CPG) 101 provides

guidelines on developing emergency operations plans (EOP). It promotes a common understanding of the fundamentals of risk-informed planning and decision making to help planners examine a hazard or threat and produce integrated, coordinated, and synchronized plans. The goal of CPG 101 is to make the planning process routine across all phases of emergency management and for all homeland security mission areas. This Guide helps planners at all levels of government in their efforts to develop and maintain viable all-hazards, all-threats EOPs.

Bookmark File PDF Comprehensive Emergency Management For Local Governments Demystifying Emergency Planning

Accomplished properly, planning provides a methodical way to engage the whole community in thinking through the life cycle of a potential crisis, determining required capabilities, and establishing a framework for roles and responsibilities. It shapes how a community envisions and shares a desired outcome, selects effective ways to achieve it, and communicates expected results. Each jurisdiction's plans must reflect what that community will do to address its specific risks with the unique resources it has or can obtain. Planners achieve

have the potential to help save lives, limit damage, and reduce the costs of dealing with emergencies.

Great strides have been made in the past four decades in the development of geospatial data and tools that describe locations of objects on the Earth's surface and make it possible for anyone with access to the Internet to witness the magnitude of a disaster.

However, the effectiveness of any technology is as much about the human systems in which it is embedded as about the technology itself. Successful Response Starts with a Map assesses the status of the use of
