By means of the analysis of more than 20 national jurisdictions of different legal and geographical origin this book provides a general understanding of the developments that civil and commercial mediation is currently undertaking across the world. The book combines 25 national reports with a General Report analyzing the major trends in civil and commercial mediation worldwide. A number of the key variables that make mediation so effective are studied in depth in the book. The concept of mediation, that varies from country to country. Its legal framework and the branches of public and private law in which it is used. The legal condition of the mediation agreement and its relevant conditions of form and content, the responsibilities of the parties in the event that they violate this agreement and the effects of this agreement on potential recourse to the courts or to arbitration, as well as with regard to pending cases. As well as the role played by the mediator, his or her appointment or designation, legal and ethical responsibilities, and the role of institutions in mediation. As well as the mediation process, its applicable rules and principles and its costs are analyzed on comparative basis. The book also pays special attention to the outcome of mediation. The enforceability of the settlement reached both in domestic and cross-border mediations constitutes a basic element for the success of the institution and is thoroughly studied. This volume constitutes a unique instrument for those interested on mediation, either practitioners, judges or academics.

Aux yeux du grand public, le refinancement d'entreprises en difficulté est avant tout un moyen efficace de faire fortune pour les investisseurs. Cette activité, connue également sous le nom de capital-retournement, est pourtant le domaine d'exercice exclusif de hauts techniciens de la finance et du droit exploitant le droit de l'ingénierie financière. Cet ouvrage démystifie le capital-retournement tout en voulant améliorer sa pratique. Pour cela, l'aspect juridique de la levée des fonds fait l'objet d'une profonde analyse. A partir de celle-ci et du droit étranger, un nouveau type de fonds est élaboré : la Société de Libre Partenariat Simplifiée (SLPS). Il s'agit d'un limited partnership capable de rivaliser avec ses concurrents anglo-saxons et luxembourgeois. De nouveaux mécanismes financiers sont proposés tels que le gage croisé ou encore le cramdown. Le mécanisme de cotation de La Banque de France est repensé. Le CIRI s'y voit confier un rôle actif. Le refinancement participatif d'entreprises en difficulté est également au coeur de la réflexion. Enfin, un nouveau régime fiscal incitatif est proposé.

A comparative history of gambling in Britain and the USA

Set in a fictitious African nation, this novel by the distinguished writer Sony Labou Tansi takes aim at the corruption, degeneracy, violence, and repression of political life in Africa. At the heart of The Shameful State is the story of Colonel Martillimi Lopez, the nation’s president, whose eccentricity and whims epitomize the "shameful situation in which humanity has elected to live." Lopez stages a series of grotesque and barbaric events while his nation falls apart. Unable to resist the dictator’s will, his desperate citizens are left with nothing but humiliation. The evocation of this deranged world is a showcase for the linguistic and stylistic inventiveness that are the hallmark of Sony Labou Tansi’s work. This first English translation by Dominic Thomas includes a foreword by Congolese writer Alain Mabanckou that contextualizes the novel’s importance in literary history and the significance of Sony Labou Tansi for future generations of writers.

Dans le contexte mondial de l’« Éducation pour tous », le continent africain doit relever plusieurs défis, parmi lesquels celui d’améliorer l’accès à l’école de tous les enfants en âge d’être scolarisés, tout en leur garantissant un enseignement de qualité. L’Initiative ELAN-Afrique, mise en œuvre par l’Organisation internationale de la Francophonie en partenariat avec l’Agence universitaire de la Francophonie, l’Agence française de développement et le ministère français des Affaires étrangères et du Développement international, accompagne les pays qui le souhaitent sur la voie d’une articulation entre les langues des élèves (langues premières, langues africaines) et la langue française qui, cinquante ans après les indépendances, demeure très majoritairement la langue de l’école africaine francophone. Les contributions réunies dans cet ouvrage sont des actes de colloque issus d’une manifestation scientifique internationale qui a rassemblé à l’université Paul-Valéry Montpellier une cinquantaine de contributeurs autour de ces questions. Elles sont organisées autour de sept thématiques pour une meilleure lisibilité : le lecteur pourra ainsi aborder la question des « transferts » (de compétences linguistiques ou cognitives), les chantiers de la formation des enseignants et des écritures curriculaires, se documenter sur les ressources pour l’enseignement multilingue et sur les pratiques pédagogiques effectives, mais aussi compléter ses connaissances à travers les éclairages émanant d’autres contextes éducatifs (Amérique latine, Caraïbe, Afrique australe, Maghreb, Liban). Un ensemble d’informations sur l’utilisation conjointe des langues africaines et du français pour la scolarisation en Afrique, qui intéressera aussi bien les étudiants, les chercheurs, les enseignants que les cadres éducatifs, les experts et les organismes bailleurs de fonds impliqués dans le processus complexe d’introduction d’approches bi-plurilingues à l’école.
