UK companies are governed by legal and other regulatory requirements impacting elements of financial statements that are common to users of both IFRS and UK GAAP. These are often referred to as the 'front half' of the financial statements. This publication contains the guidance applicable to all UK companies regardless of the GAAP under which their financial statements are prepared.Written by PwC's UK Assurance Risk and Quality team, the manual includes practical advice based on PwC's work advising clients, partners and staff. The book will be of particular interest to finance directors, accountants, legal practitioners, company administrators, financial advisors and auditors.This year's edition provides guidance for UK quoted companies on the 'front half' of financial statements, including many illustrations and examples. Key updates from previous edition include: Updated guidance for new external guidance and legislation includingFRS UK Corporate governance code and 2013 Statutory instruments regulations New real-life examples from accounts

Covering New York, American & regional stock exchanges & international companies.

Hospitality Marketing: an introduction takes a unique approach to outlining marketing processes in the hospitality industry. Ideal for those new to the topic of marketing, this text contextualises the subject for the hospitality sector. It discusses the eight elements of the marketing mix with direct reference to the specifics of the hospitality industry and approaches the whole process in three stages, as would the hospitality marketing manager: \* BEFORE customers visit the hotel / restaurant, the marketing task is to research the market, manage customer expectations and motivate trial purchase through product / service development, pricing, location, distribution and marketing communication. \* DURING the service encounter, the task is to meet or exceed customer expectation by managing the physical evidence, service processes and employee behaviour. \* AFTER the service encounter, the task is to audit quality and customer satisfaction, and promote a longer term mutually beneficial relationship with customers through relationship marketing initiative. Hospitality Marketing is a complete learning resource, with real-life examples, case studies and exercises in the text, plus an accompanying website which provides solutions to the exercises, further case studies and links to relevant sites to support both students and lecturers.
