[A] stunning tale of academic fraud ... shocking and compelling. The Washington Post Dave Tomar wrote term papers for a living. Technically, the papers were [study guides,] and the companies he wrote for there are quite a few—are completely aboveboard and easily found with a quick web search. For as little as ten dollars a page, these paper mills provide a custom essay, written to the specifics of any course assignment. During Tomar's career as an academic surrogate, he wrote made-to-order papers for everything from introductory college courses to Ph.D. dissertations. There was never a shortage of demand for his services. The Shadow Scholar is the story of this dubious but all-too-common career. In turns shocking, absurd, and ultimately sobering. Tomar explores not merely his own misdeeds but the bureaucratic and cash-hungry colleges, lazy students, and even misguided parents who help make it all possible.

Rebecca D. Cox draws on five years of interviews and observations at community colleges, where she shows how students and their instructors misunderstand and ultimately fail one another, despite good intentions. Eye-opening even for experienced faculty and administrators, The College Fear Factor reveals how the traditional college culture can actually pose obstacles to students' success, and suggests strategies for effectively explaining academic expectations.

Knowing how to post bail and get out of jail in fifteen minutes is darn handy for almost everyone. For a disoriented 18-year-old who's found himself in a pinch, it's downright necessary. College kids are naïve, eager, and prone to trouble, and whether they're funneling beer or fighting sweatshop labor, they need to know their rights. Just logging onto the university computer system, for example, opens a student to a host of legal questions about whether the school can monitor her email or her surfing habits or her blogs. But the amount of practical legal information available to the nation's 15 million college students is extremely limited and most students don't have ready access to lawyers. What they need is a handbook that will cover the issues they're likely to confront, a guide that is informative, easy to read, and not embarrassing to have on their shelves. With a retro look and a humorous, approachable tone, THE COLLEGE STUDENT'S GUIDE TO THE LAW provides legal explanations, strategies for steering clear of problems, and detailed instructions about how to deal with the authorities:both educational and municipal!when trouble can't be avoided. The book is divided into sections for easy access to information: "The Law in the Classroom" offers guidance on academic dishonesty, grading grievances, and professor-student relations. "The Law On Campus" discusses problems outside the classroom but on university turf, from privacy rights (whether in the dorms, on a hard drive, or in the Registrar's Office) to interactions with campus security. "The Law Off Campus" provides advice on dealing with legal issues that are endemic to university life such as underage drinking policies, landlord-tenant disputes, and credit-card use and abuse. THE COLLEGE STUDENT'S GUIDE TO THE LAW ranks with the shower caddy, the extra-long twin sheet set, and the mini fridge as an absolutely indispensable item for every college freshman. And every returning student who might contest a grade, plan a campus protest, or sign an apa

High school students, two-year college students, and university students all need to know how to write a well-reasoned, coherent research paper!and for decades Kate Turabian's Student's Guide to Writing College Papers has helped them to develop this critical skill. In the new fourth edition of Turabian's popular guide, the team behind Chicago's widely respected The Craft of Research has reconceived and renewed this classic for today's generation. Designed for less advanced writers than Turabian's Manual of Writers of Research Papers, Theses, and Dissertations, Seventh Edition, Gregory G. Colomb and Joseph M. Williams here introduce students to the art of defining a topic, doing high-quality research with limited resources, and writing an engaging and solid college paper. The Student's Guide is organized into three sections that lead students through the process of developing and revising a paper. Part 1, "Writing Your Paper," guides students through the research process with discussions of choosing and developing a topic, validating sources, planning arguments, writing drafts, avoiding plagiarism, and presenting evidence in tables and figures. Part 2, "Citing Sources," begins with a succinct introduction to why citation is important and includes sections on the three major styles students might encounter in their work:Chicago, MLA, and APA!all with full coverage of electronic source citation. Part 3, "Style," covers all matters of style important to writers of college papers, from punctuation to spelling to presenting titles, names, and numbers. With the authority and clarity long associated with the name Turabian, the fourth edition of Student's Guide to Writing College Papers is both a solid introduction to the research process and a convenient handbook to the best practices of writing college papers. Classroom tested and filled with relevant examples and tips, this is a reference that students, and their teachers, will turn to again and again.

Provides an overview of the issue of electronic plagiarism in an age of unprecedented access to information, and offers deterrents including academic integrity policies, character education, and high-tech defenses.

A deeply moving family story of happiness and heartbreak, Behind the Scenes at the Museum is bestselling author Kate Atkinson's award-winning literary debut.
