This is a new edition of the classic textbook on marine protected area (MPA) management in the tropics, originally produced as an output of the Bali World Parks Congress in 1982. Approaches to planning and managing MPAs have evolved considerably. Major advances include innovative financing mechanisms, partnerships with the private sector and NGOs, and collaborative management between government and coastal communities. These advances have brought new approaches for MPA establishment and management that are more participatory, involving communities through interaction and collaboration rather than prescription. With new case studies and illustrations, the guide comes in a water-resistant cover for field use. It is intended for those who plan individual and/or national MPA systems and gives philosophical context for MPAs along with some basic principles and approaches.

Bring fun and adventure back into your child ' s life. In *The Worry Workbook for Kids*, two respected psychologists offer fun, action-based activities grounded in cognitive behavioral therapy (CBT) to help your child move past fears of uncertainty, set and accomplish goals, and—most importantly—enjoy being a kid. Today ' s kids face intense pressures at school, with friends, and in life. But one of the most prevalent causes of worry in children is the fear of the unknown. Whether they are starting at a new school, trying out for a new sport, or going to a sleepover—for many kids who worry, it can be difficult moving from “ What if? ” to “Why not?” and trying new things. Sound familiar? Written for children ages seven to twelve, this engaging workbook offers evidence-based cognitive behavioral therapy (CBT) tools to help kids embrace uncertainty and actually change their thoughts and behaviors by taking action—which will help bring adventure, fun, and freedom back into their lives! The practices in this workbook can be used anytime, anyplace, to help kids put a stop to worry before worry takes over. Childhood is a precious time that goes by so quickly, and chronic worrying can take a hefty toll both mentally and physically. Teaching kids how to deal with stress early will set them up for a lifetime of happiness and success. This workbook can help you do just that.
