Five high school friends have one thing in common as they start their sophomore year: none of them have ever been on a "real" date. With homecoming looming, they make a pact and start a secret club they call the DG (Dating Game). They're sworn to secrecy--and to purity--but the club is their way to set each other up on their first dates so they can report back to the DG. Of course, they all make different choices about how to deal with their parents and how to act on their dates, and they discover that they all have totally different experiences. Still, the things they learn about boys and dating will stick with them throughout high school. Bestselling author and teen favorite Melody Carlson starts off her newest series with a good dose of fun, tackling two topics teen girls love to read about--friends and boys.

The girls of the Dating Games club are at it again, setting each other up on five blind dates for the upcoming masquerade ball. Trouble is, some of the girls are wondering if the others can be trusted to deliver on their promises. In fact, there's a very real danger that this dating treat could turn out to be nothing but a nasty trick. Teens will be delighted to spend more time with Cassidy, Devon, Abby, Brynn, and Emma as they navigate the thrilling and awkward world of dating. As always, Melody Carlson subtly delivers great advice wrapped up tight in a package of fun and friendship.

The girls of the Dating Games club have learned a lot this year--about boys, dating, friendship, and themselves. Now the school year is wrapping up, and the biggest date of all looms on the horizon: prom. With this new challenge comes a lot of extra pressure and expectations.

Everyone wants the perfect dress, the perfect date, the perfect dance. But what happens when things don't go according to plan? Teen readers have found friends in these vibrant characters and will be thrilled to accompany them to the prom.

This collection explores the relationship between digital gaming and its cultural context by focusing on the burgeoning Asia-Pacific region. Encompassing key locations for global gaming production and consumption such as Japan, China, and South Korea, as well as increasingly significant sites including Australia and Singapore, the region provides a wealth of divergent examples of the role of gaming as a socio-cultural phenomenon. Drawing from micro ethnographic studies of specific games and gaming locales to macro political economy analyses of techno-nationalisms and trans-cultural flows, this collection provides an interdisciplinary model for thinking through the politics of gaming production, representation, and consumption in the region.

The girls of the DG have found that through the club, both their friendships and their dating savvy have grown. But all that is about to be put to the test. Despite their promises of secrecy, word has somehow gotten out, and new girls want to join the club. The reaction in the DG is mixed, but with the Christmas Ball coming up, they need to pull together to organize their double dates. The trouble is, how can they get guys interested in a dance that's become increasingly unpopular? Cassidy, Devon, Abby, Bryn, and Emma are quickly becoming teen favorites as they navigate the crazy world of dating. As always, Melody Carlson subtly delivers great advice wrapped up tight in a package of fun and friendship.

At 47 years old, KarenLee Poter found herself suddenly single after being married for 24 years. Upon jumping into the dating world, she found the majority of men she jived with were considerably younger. Poter wanted to explore this further, so she created a sex and dating talk show, which became extremely popular on YouTube with men 18-35 who had a fascination with older women. In this book, Poter describes why a Cougar -- a term she re-defined as a confident, older, unique, genuine, assertive, and racy woman -- is so attractive to younger men and why the dynamic works so well. KarenLee also shares her real life personal anecdotes on dating and being in long term relationships with younger men, and she candidly dishes hot tips in response to her audiences' comments and questions on the ever-popular older women/younger men phenomenon.

Special edition of the Federal Register, containing a codification of documents of general applicability and future effect ... with ancillaries.
