This is the true story of one of the most ambitious and successful marine salvage operations ever undertaken. In 1942, in WW2, Stalin demanded help from Britain to supply urgently needed war materials. Convoys provided this transport. Churchill insisted that all the shipments be paid for at the time in gold. The gold bullion payments were always shipped on the lead escort vessel of the returning convoy. In April 1942, this was HMS Edinburgh. She was struck by two torpedoes and sank into the Barents Sea, taking 5 1/2 tons of Stalin ' s Gold to the bottom with her. This is the true story of how Ric Wharton ' s company, Wharton Williams Ltd. (2W) found the wreck and the gold worth £50 million at the time. The salvage remains a world record for the value of gold bullion recovered and the water depth of the recovery operation. Ric Wharton has had a long career in the diving and salvage industry and this book gives a fascinating insight into the exciting world of diving salvage.

“ Strategic International Management ” takes a global perspective and covers the major aspects of international business strategies, the coordination of international companies and the particularities of international value chain activities and management functions. The book provides a thorough understanding of how Production & Sourcing, Research & Development, Marketing, Human Resource Management and Controlling have to be designed in an international company and what models are available to understand those activities in an international context. The book offers 20 lessons that provide a comprehensive overview of all key issues. Each lesson is accompanied by a case study from an international company to facilitate the understanding of all important factors involved in strategic international management.

This is an updated edition which includes new supplements on Tin, Tantalum and Tungsten and on Gold.

This book brings together perspectives from economics, specifically minerals economics, to the management of global mining companies. It covers volatile price forecasting, cost analysis, investment decisions, and the social, environmental, and developmental impacts of mining.

Amid the turmoil in the Eurozone, economic problems in Russia, stagnation in Japan, and rumblings that China may slip into recession, the one reliable asset is the American dollar. While it may encounter ups and downs, investors for decades have been confident that it will never lose a substantial part of its value. That may be about to change. In *The Big Reset*, Willem Middelkoop lays out the case for an inevitable monetary reset, one that will be designed to keep the United States in the driver's seat, but will include strong roles for the Euro and China's Renminbi--and, crucially, gold. This fully revised edition of Middelkoop's book takes into account developments since its original publication, which have only strengthened the case for the coming return of gold.

History of the firm of London bullion brokers.

A detailed look at the fast-growing field of Islamic banking and finance *The Art of Islamic Banking and Finance* is a modern American take on what it means to incorporate Islamic finance principles into everyday banking and investment techniques by introducing a new brand of banking for all people of all faiths: The Riba-Free (RF) banking. The author is considered the father of RF (Islamic) banking in America. He has been a banker and an Imam/scholar for over 40 years in America since 1968. He started the tedious process with a finance company, LARIBA, in Pasadena, California in 1987. This is the first book ever in the field to trace the origins of prohibiting the renting of money at a price called interest rate and over-indulging in debt. The book reviews in great details the theological foundations of prohibiting interest in the Jewish Bible, the Christian Bible, and the Qur'aan. The author then discusses money and how fiat money is created, the role of the Federal Reserve, and the banking system in America. The book also discusses for the first time ever how to include an important aspect of RF (Islamic) finance using commodity indexation and marking the items to be financed to market in order to avoid participating in economic "bubbles." The author discusses how these rules work, how they affect consumer behavior, and how they change the role of the banker/financier. Covers a new pioneering model that is based on the Law (Shari'aa) and how it is applied in every transaction from joint ventures and portfolio management to home mortgages and personal financing Shows how to incorporate the Law (Shari'aa) into American financing and banking systems Points to RF (Islamic) finance and banking as a way to emphasize socially responsible investing *The Art of Islamic Banking and Finance* also includes a discussion on the emergence of a culture of RF (Islamic) banking and finance today, which is based on the real Judeo-Christian-Islamic spirit and very effective when compared to twentieth-century models that use financial engineering and structuring techniques to circumvent the Law (Shari'aa). The book also includes case studies based on the actual experience of the author and detailed analysis of the superior results realized by applying this new brand of banking to financing.

Addressing base erosion and profit shifting (BEPS) is a key priority of governments. In 2013, OECD and G20 countries, working together on an equal footing, adopted a 15-point Action Plan to address BEPS. This publication is the final report for Actions 8-10.
