The Sunday Times Bestseller 'Really brilliant and just crammed with wisdom and insight. It will genuinely make a difference to me and the way I think about myself.' Stephen Fry ___ Everyone says they want to be happy. But that's much more easily said than done. What does being happy actually mean? And how do you even know when you feel it? In Happy Derren Brown explores changing concepts of happiness - from the surprisingly modern wisdom of the Stoics and Epicureans in classical times right up until today, when the self-help industry has attempted to claim happiness as its own. He shows how many of self-help's suggested routes to happiness and success - such as positive thinking, self-belief and setting goals - can be disastrous to follow and, indeed, actually cause anxiety. Happy aims to reclaim happiness and to enable us to appreciate the good things in life, in all their transient glory. By taking control of the stories we tell ourselves, by remembering that 'everything's fine' even when it might not feel that way, we can allow ourselves to flourish and to live more happily. ___ What readers are saying: ***** 'Immensely positive and life-affirming' ***** 'This is the blue print to a good life' ***** 'Thought provoking and potentially life-changing.'

Derren Brown: 'I was a terrible attention seeker ...

_____ As well as being an incredible stage performer, a brilliant writer and a talented painter, Derren Brown is also a fantastic street photographer. Here, for the first time, is a selection of his work. As he writes of his passion: 'Street photography is a fitting refuge for those who look at life from a distance. It both sanctifies our remoteness (by offering the standpoint of the observer) and challenges it, insisting we approach with a spritely curiosity. It offers a safe route back into the world: the camera is an entry ticket to daunting social situations and extraordinary environments where we might otherwise feel entirely out of place. Suddenly we have a role: a reason to be present. And for those of us smitten by its appeal, it provides a means of fortifying and forgetting ourselves, while extending out into the world with a controlled compassion.'

In this book, readers may find out different information on Derren Brown. Obsessed with magic and illusions since childhood, he intends to allow readers join him on a magical mystery tour - to the centre of his brain.

Brilliant . . . crammed with wisdom and insight.' Stephen Fry on Happy In A Little Happier Derren Brown draws out the essential discoveries from his international bestseller Happy to help you lead your happiest life. Life is hard, messy and complex. But if we can learn to separate what we can control - our thoughts and actions - from all else beyond our control, we can find a surer footing with which to greet the world and experience our own concept of happiness. - None of this is real when each of us tells stories about our lives in too tidy narratives that are seldom true and rarely helpful. - We should be wary of goal setting: long-term goals fixate us on a future that may not happen and we may not wish for when we get there. - Our partner isn't right for us because no-one is. None of us is born for someone else. But perhaps those areas of frequent conflict are useful indicators of where we might ourselves be insufferable. A Little Happier's 17 inspiring and reassuring lessons will help you define and find your own happiness. Its lessons challenge us to think differently about the meaning of happiness and how we can over overcome anxiety in a difficult world. ***** 'A no nonsense guide to seeing and appreciating the world we live in.' ***** 'A brilliant, insightful and clear book. A beautiful accompaniment to Happy.' ***** 'This book will have a big impact on people who suffer with anxiety and depression. A must read.'
