New communication technologies are being introduced at an astonishing rate. Making sense of these technologies is increasingly difficult. Communication Technology Update is the single best source for the latest developments, trends, and issues in communication technology. Now in its 10th edition, Communication Technology Update has become an indispensable information resource for business, government, and academia. As always, every chapter has been completely rewritten to reflect the latest developments and market statistics, and now covers mobile computing, digital photography, personal computers, digital television, and electronic games, in addition to the two dozen technologies explored in the previous edition. The book's companion website ([www.tfi.com/ctu](http://www.tfi.com/ctu)) offers updated information submitted by chapter authors and offers links to other Internet resources. \*Provides students and professionals with the latest information in all areas of communication technologies \*The

Corporations and Cultural Industries: Time Warner, Bertelsmann, and News Corporation, by Scott Warren Fitzgerald, fills an important neglected area in communication and media studies through its sustained, theoretically-grounded, and empirically rich analysis of three of the most important global media conglomerates of our time: Time Warner, Bertelsmann, and News Corp. The books examines how financialization processes re-gear the internal operations of media corporations in a manner that pits one sector against another.
