Traditionally, development has been rooted in ideologies and assumptions prevalent in the developed world and in practices and strategies adopted by leading industrial nations. However, historically, eclectic ideas and approaches often clash with existing long-established notions of progress and modes of realizing social and economic change. *Managing Development in a Globalized World: Concepts, Processes, Institutions* explores this topic by incorporating ideas and interpretations that have previously been neglected or given inadequate attention in the discourse on developing countries. It underscores development as a continuous process that must be supported by sound policies and efficient management, supplying a wider understanding of the field. The authors argue that the application of innovative development techniques and best practices is essential for obtaining optimum results in meeting the needs of society. They examine the style of managing development with a new perspective that links the phenomenon with changing demands and the interplay of internal/external actors and a host of stakeholders. An exploration of key sectors in development provides clear comprehension of problems and solutions. A careful synthesis of theoretical/conceptual and empirical literature, the book assesses real-world situations and provides insight into the operational dynamics of development policies, programs, and institutions. It focuses on goals, values, and dynamics of development management that are undergoing rapid changes and continue to be enhanced to alleviate poverty and improve living standards in an era of globalization and inter-regional and inter-institutional synergies. It highlights best practices essential for the efficient and effective delivery of human development services that are designed and put in place to obtain optimum results in meeting the

needs of society.

This book examines the prevailing legal discourse surrounding domestic violence law in India. It investigates the myths, patriarchal stereotypes, and misconceptions that undermine the process of justice and dilute legal provisions to the detriment of survivors. The volume: Develops arguments based on legal case studies and draws extensively on knowledge from various fields of study, as well as the experience of women survivors. Examines fallacies within the legal framework through a study of strategic lawsuits against public participation suits within the Indian context. Proposes measures for a fair and more gender inclusive legal system that focuses on facilitating access to justice. Suggests that emphasis be laid on establishing the rule of law and eliminating the culture of violence. A key text on gender and law in India, this book will be indispensable to scholars and researchers of socio-legal studies, law, gender, human rights, women ' s studies, social science, political science, and feminist jurisprudence in South Asia. It will also be of interest to NGOs, activists, and lawyers.

This book facilitates a critical reassessment of African immigrants, as well as their transnational challenges. It promotes knowledge about Africans in the Diaspora and the African continent through current and relevant case studies.

Proceedings of the 5th International Conference on Innovation and Entrepreneurship held in Cyberjaya, Malaysia on 26th-27th April 2017.
