"Women must try to do things as men have tried. " When she was eight years old, Amelia Earhart built a roller coaster and "flew" through the air. She loved to watch daredevil pilots fly loops in the sky. Amelia decided to pilot a plane herself, and became one of the first women to learn to fly. She broke flight records and in 1932 was the first woman to fly across the Atlantic Ocean alone. The whole world admired her courage and daring. Amelia Earhart disappeared while trying to set a new record flying all the way around the world at the equator, but her pioneer spirit inspired many others to follow in her path.

She died mysteriously before she was forty. Yet in the last decade of her life Amelia Earhart soared from obscurity to fame as the best-known female aviator in the world. She set record after record—among them, the first trans-Atlantic solo flight by a woman, a flight that launched Earhart on a double career as a fighter for women's rights and a tireless crusader for commercial air travel. Doris L. Rich's exhaustively researched biography downplays the "What Happened to Amelia Earhart?" myth by disclosing who Amelia Earhart really was: a woman of three centuries, born in the nineteenth, pioneering in the twentieth, and advocating ideals and

With incredible photos, maps, and handwritten notes from Amelia herself—plus informative sidebars tackling everything from the history of flight to what Amelia liked to eat while flying (tomato soup)—this unique nonfiction title is tailor-made for middle graders. *Amelia Lost* received four starred reviews and Best Book of the Year accolades from *School Library Journal*, *Kirkus Reviews*, *Horn Book Magazine*, the *Washington Post*, and the *New York Times*.
