Douglas Bader was a legend in his lifetime and remains one today 100 years after his birth. A charismatic leader and fearless pilot he refused to let his severe disability (loss of both legs in a flying accident) ground him. He fought the authorities as ruthless as he did the enemy and not only

managed to return to the front line but became a top scoring ace. His innovative tactics (The Big Wing) ensured his promotion and he led a key group of squadrons during the dark days of the Battle of Britain. His luck ran out when he was shot down and captured; he only escaped his

burning fighter by cutting away one of his artificial legs. As a POW he was a thorn in the Germans side and he was sent to Colditz Castle. As this perceptive book reveals Bader, the hero, was at times a difficult overbearing man, no doubt in part due to the pain he suffered. But his

Pen & Sword Books are proud to be re-issuing this the only book that the legendary 'legless' ace Douglas Bader (immortalised by the film Reach For The Sky) wrote. He tells the inspiring story of the Battle of Britain from the viewpoint of 'The Few'. Using superb illustrations he traces the development

of the Spitfire and Hurricane and describes the nail-biting actions of those who flew them against far superior numbers of enemy aircraft. As an added bonus, other well-known fighter aces including Johnnie Johnson, 'Laddie' Lucas and Max Aikten contribute to Douglas's book,

during the last thirteen years of his Bader's life, this biography tells the full story from his childhood to his work with the disabled in later life. After a flying accident in which he lost his legs, Douglas Bader was invalided out of the RAF. At the outbreak of war in 1939 he was recalled to the RAF and

returned to flying. He fought in the Battle of Britain and later in nearly one hundred offensive fighter patrols. Following a mid-air collision he was captured and became a prisoner-of-war and was imprisoned in Colditz. The story of his war-time activities, both in the air and as a POW, is told in

some detail and makes fascinating reading. These activities helped him to achieve celebrity status and in later life much of his time was given to promoting causes for the disabled. John Frayn Turner's account of a remarkable life is a fitting tribute to one of the country's most heroic figures.

The truth & the myths about the legless Battle of Britain fighter ace.

"That he overcame his disability and flew into battle-leading squadrons of Spitfires and Hurricanes in the epic air battle of summer 1940 - is truly

Acces PDF Douglas Bader

remarkable. Bader's first aerial victory - a Messerschmitt 109 - was recorded over Dunkirk on 1 July 1940. During the subsequent Battle of Britian this remarkable airman claimed the destruction of seven more enemy aircraft: Me 110s, Do 17s, Ju 88s and another Me 109 falling to his guns.

The legless airman was, of course, rich material for the propagandists, who lost no time in manipulating his exploits to increase Britian's morale. Newspaper reports and radio broadcasts of his aerial victories abounded." --- from back cover.
