Yanis Varoufakis was put in such a dilemma in 2015 when he became the finance minister of Greece. In this rousing book, he charts the absurdities that underpin calls for austerity, as well as his own battles with a bureaucracy bent on ignoring the human cost of its every action. What does it mean if you dream you're being chased by someone in a dream night after night? What if you're flying, or falling, or spitting out teeth? Should you be embarrassed if you happen to be walking through Grand Central Station in the nude? You dream every night, even if you don't remember your dreams. Dreams are an important key to self-discovery, offering insight, guidance, and inspirations. All dreams--even nightmares--contain positive messages. The trick is learning to decipher the symbolism so you can understand what your dreams are trying to tell you. The Dream Book: includes interpretation of 1,650 dream symbols, along with explanations of recurring dreams, prophetic dreams, violent dreams, dreams about snakes, aboutsex, money, death, and more. Could drugs offer a new way of seeing the world? In 1953, in the presence of an investigator, Aldous Huxley took four-tenths of a gramme of mescaline, sat down and waited to see what would happen. When he opened his eyes everything, from the flowers in a vase to the creases in his trousers, was transformed. His account of his experience, and his vision for all that psychedelics could offer to mankind, has influenced writers, artists and thinkers around the world.
