The Dreamseller travels the land helping people find the root of their unhappiness and realize their dreams, after which they follow the Dreamseller on his amazing journey. By the author of Think and Make It Happen. 60,000 first printing.

Now a major motion picture! A moving, inspirational, and “masterfully told” (Mike Dooley, New York Times bestselling author) modern fable about a mysterious man who changes people’s lives for the better—perfect for fans of The Celestine Prophecy. Wherever he goes, the Dreamseller enchants, stirs up trouble, and inspires his listeners to search for the most important thing: the heart of the human soul. Every person he meets is someone who has abandoned their dreams and is struggling through life: a professor who has stopped pursuing his passions; a lonely alcoholic with no family; the elderly who have lost their zest for life. Through his wisdom, the Dreamseller helps them to look into their silent hearts and get to the root of their unhappiness. An illuminating and “intellectual novel” (Library Journal) that will not only make you laugh and cry, it will help you reflect on the purpose of your life, teach you to value others, and empower you to believe in your dreams.

Take control of your past, your memory, your emotions, your life! While in medical school, Dr. Augusto Cury became fascinated with the impact a healthy mind can have on emotions and life. After many years of research and founding The Intelligence Institute, he concluded: Every person is a genius because everyone has the power to think. Harnessing “mind power” has been scientifically proven to enhance a person's physical, mental, and spiritual well-being. The human act of thinking is the greatest wonder of the universe. In Think, and Make It Happen, Dr. Cury unveils the multifocal intelligence process showing readers how to master their emotions, stress, thoughts, and relationships, as well as how to become creative thinkers and revolutionary leaders. Complete with a 12-week program, participants will learn to apply the universal laws for quality of life to their own lives: authorship, beauty, creativity, sleep, thoughts, emotions, memory, listening, dialogue, drive, and spirituality and celebration and start experiencing the life they desire.

A philosopher traverses the country delivering messages to the despondent, encouraging them to recognize society's commonplace heroes, including parents, teachers, and cancer patients.

Every sorority has its secrets... And college freshman Ginger Carmichael couldn’t care less. She has more important things on her mind, like maintaining her perfect GPA. No matter how much she can’t stand the idea of the cliques and the matching colors, there’s something about the girls of Alpha Beta Omega—their beauty, confidence, and unapologetic sexuality—that draws Ginger in. But once initiation begins, Ginger finds that her pledge is more than a bond of sisterhood, it’s a lifelong pact to serve six bloodthirsty demons with a lot more than nutritional needs. Despite her fears, Ginger falls hard for the immortal queen of this nest, and as the semester draws to a close, she sees that protecting her family from the secret of her forbidden love is much harder than studying for finals.
