Does the identification number 60 indicate a toxic substance or a flammable solid, in the molten state at an elevated temperature? Does the identification number 1035 indicate ethane or butane? What is the difference between natural gas transmission pipelines and natural gas distribution pipelines? If you came upon an overturned truck on the highway that was leaking, would you be able to identify if it was hazardous and know what steps to take? Questions like these and more are answered in the Emergency Response Guidebook. Learn how to identify symbols for and vehicles carrying toxic, flammable, explosive, radioactive, or otherwise harmful substances and how to respond once an incident involving those substances has been identified. Always be prepared in situations that are unfamiliar and dangerous and know how to rectify them. Keeping this guide around at all times will ensure that, if you were to come upon a transportation situation involving hazardous substances or dangerous goods, you will be able to help keep others and yourself out of danger. With color-coded pages for quick and easy reference, this is the official manual used by first responders in the United States and Canada for transportation incidents involving dangerous goods or hazardous materials.

Comprehensive Preparedness Guide (CPG) 101 provides Federal Emergency Management Agency (FEMA) guidance on the fundamentals of planning and developing emergency operations plans (EOP). CPG 101 shows that EOPs are connected to planning efforts in the areas of prevention, protection, response, recovery, and mitigation. Version 2.0 of this Guide expands on these fundamentals and encourages emergency and homeland security managers to engage the whole community in addressing all risks that might impact their jurisdictions. While CPG 101 maintains its link to previous guidance, it also reflects the reality of the current operational planning environment. This Guide integrates key concepts from national preparedness policies and doctrines, as well as lessons learned from disasters, major incidents, national assessments, and grant programs. CPG 101 provides methods for planners to: Conduct community-based planning that engages the whole community by using a planning process that represents the actual population in the community and involves community leaders and the private sector in the planning process; Ensure plans are developed through an analysis of risk; Identify operational assumptions and resource demands; Prioritize plans and planning efforts to support their seamless transition from development to execution for any threat or hazard; Integrate and synchronize efforts across all levels of government. CPG 101 incorporates the following concepts from operational planning research and day-to-day experience: The process of planning is just as important as the resulting document; Plans are not scripts followed to the letter, but are flexible and adaptable to the actual situation; Effective plans convey the goals and objectives of the intended operation and the actions needed to achieve them. Successful operations occur when organizations know their roles, understand how they fit into the overall plan, and are able to execute the plan. Comprehensive Preparedness Guide (CPG) 101 provides guidelines on developing emergency operations plans (EOP). It promotes a common understanding of the fundamentals of risk-informed planning and decision making to help planners examine a hazard or threat and produce integrated, coordinated, and synchronized plans. The goal of CPG 101 is to make the planning process routine across all phases of emergency management and for all homeland security mission areas. This Guide helps planners at all levels of government in their efforts to develop and maintain viable all-hazards, all-threats EOPs. Accomplished properly, planning provides a methodical way to engage the whole community in thinking through the life cycle of a potential crisis, determining required capabilities, and establishing a framework for roles and responsibilities. It shapes how a community envisions and shares a desired outcome, selects effective ways to achieve it, and communicates expected results. Each jurisdiction's plans must reflect what that community will do to address its specific risks with the unique resources it has or can obtain. Planners achieve unity of purpose through coordination and integration of plans across all levels of government, nongovernmental organizations, the private sector, and individuals and families. This supports the fundamental principle that, in many situations, emergency management and homeland security operations start at the local level and expand to include Federal, state, territorial, tribal, regional, and private sector assets as the affected jurisdiction requires additional resources and capabilities. A shared planning community increases the likelihood of integration and synchronization, makes planning cycles more efficient and effective, and makes plan maintenance easier.

"Trauma Junkie gives us a view over the flight nurse's shoulder from liftoff until the patient is delivered to the hospital and the agonizing minutes in between. These fascinating true stories are impossible to put down." -- James M. Betts, MD, Chief of Department of Surgery and Director of Trauma Services, Children's Hospital, Oakland
"A exciting portrayal of emergency nursing." -- Library Journal
"Fast-paced nonfiction that reads like an adventure story." -- School Library Journal
In Trauma Junkie, readers accompany veteran flight nurse Janice Hudson as she races in response to emergency calls in the San Francisco Bay Area. Her workplace is a cramped California Shock Trauma Air Rescue (CALSTAR) helicopter in which medical personnel try to fix the human carnage wrought by shootings, accidents and natural disasters. In this new and expanded edition, Hudson updates readers on how she and her colleagues have fared since moving on to different medical roles -- including her own battle with multiple sclerosis, which ultimately forced her to give up the job she loved. The new Trauma Junkie also contains several previously unpublished stories, including a new addition to the lineup of "stupid human tricks" Hudson witnessed and an all-new chapter describing a call involving the most heartbreaking of patients: a child who didn't make it. Hudson is a natural storyteller who conveys the excitement of her days with calstar -- heroic rescues, tragic deaths and the hilarious incidents that made the tension bearable -- and the deep commitment of her team to keep patients alive in the most perilous situations. TRB's National Cooperative Highway Research Program (NCHRP) Report 525, Vol. 16: A Guide to Emergency Response Planning at State Transportation Agencies is designed to help executive management and emergency response planners at state transportation agencies as they and their local and regional counterparts assess their respective emergency response plans and identify areas needing improvement. NCHRP replaces a 2002 document, A Guide to Updating Highway Emergency Response Plans for Terrorist Incidents. NCHRP Report 525, Vol. 16 is supported by the following online appendices: Appendix K - Annotated Bibliography; Appendix L - White Paper on Emergency Response Functions and Spreadsheet Tool for Emergency Response Functions; Appendix M - 2010 Guide Presentation. NCHRP Report 525: Surface Transportation Security is a series in which relevant information is assembled into single, concise volumes - each pertaining to a specific security problem and closely related issues. The volumes focus on the concerns that transportation agencies are addressing when developing programs in response to the terrorist attacks of September 11, 2001, and the anthrax attacks that followed. Future volumes of the report will be issued as they are completed.

NEW YORK TIMES BESTSELLER • Read with Jenna Book Club Pick as Featured on Today • A “dazzling” novel that “will break your heart and put it back together again” (J. Courtney Sullivan, bestselling author of Saints for All Occasions) about a young boy who must learn to go on after surviving tragedy
NAMED ONE OF THE BEST BOOKS OF THE YEAR BY The Washington Post • Parade • LibraryReads • “A reading experience that leaves you profoundly altered for the better . . . Don’t miss this one.” —Jodi Picoult, bestselling author of Small Great Things and A Spark of Light
What does it mean not just to survive, but to truly live? One summer morning, twelve-year-old Edward Adler, his beloved older brother, his parents, and 183 other passengers board a flight in Newark headed for Los Angeles. Among them are a Wall Street wunderkind, a young woman coming to terms with an unexpected pregnancy, an injured veteran returning from Afghanistan, a business tycoon, and a free-spirited woman running away from her controlling husband. Halfway across the country, the plane crashes. Edward is the sole survivor. Edward’s story captures the attention of the nation, but he struggles to find a place in a world without his family. He continues to feel that a part of himself has been left in the sky, forever tied to the plane and all of his fellow passengers. But then he makes an unexpected discovery—one that will lead him to the answers of some of life’s most profound questions: When you’ve lost everything, how do you find the strength to put one foot in front of the other? How do you learn to feel safe again? How do you find meaning in your life?
Dear Edward is at once a transcendent coming-of-age story, a multidimensional portrait of an unforgettable cast of characters, and a breathtaking illustration of all the ways a broken heart learns to love again. Praise for Dear Edward “Dear Edward made me think, nod in recognition, care about its characters, and cry, and you can’t ask more of a novel than that.” —Emma Donoghue, New York Times bestselling author of Room “Weaving past and present into a profoundly beautiful, page-turning story of mystery, loss, and wonder, Dear Edward is a meditation on survival, but more important, it is about carving a life worth living. It is about love and hope and caring for others, and all the transitory moments that bind us together.” —Hannah Tinti, author of The Twelve Lives of Samuel Hawley and The Good Thief
