This is a collection of essays by leading economists surveying and assessing the contribution made to the development of economics in the 20th century by Sir Dennis Holme Robertson whose centenary was celebrated in 1990.

This work has been selected by scholars as being culturally important and is part of the knowledge base of civilization as we know it. This work is in the public domain in the United States of America, and possibly other nations. Within the United States, you may freely copy and distribute this work, as no entity (individual or corporate) has a copyright on the body of the work. Scholars believe, and we concur, that this work is important enough to be preserved, reproduced, and made generally available to the public. To ensure a quality reading experience, this work has been proofread and republished using a format that seamlessly blends the original graphical elements with text in an easy-to-read typeface. We appreciate your support of the preservation process, and thank you for being an important part of keeping this knowledge alive and relevant.

In this new collection of essays, ranging from biography to critical surveys of opinion, the events of Robertson's life and career, his contributions to economics, the all-important influence of temperament on the development of his thought, his relationship with Keynes and the issues in his opposition to the Keynesian revolution are considered.

This book provides a comprehensive overview of Robertson's life and work. Uncovering the sources of Robertson's inspiration and ideas and the all-important causal relationship between the man and his work, this fascinating account is a must-read for all interested in rediscovering this great economist.
